

Verify Social Security Numbers Pre-Hire with Abso Talent Management Software

Roseville, CA – January 13, 2009 – Abso, a leading provider of integrated talent management solutions, is now offering electronic verification of Social Security Numbers (SSN) directly with the Social Security Administration's (SSA) database. Through Abso, HR managers can electronically verify SSNs pre-hire to eliminate delays during onboarding and to streamline hiring process tasks.

With Abso® Screening Edition™ or Talent Edition™, the SSN check can be initiated with a simple click, right from the interface HR managers use for other screening tasks. This eliminates duplicate data entry and reduces manual steps and errors. The instant results are automatically recorded in the candidate's record, showing a Verified, Failed, or Deceased result, which ensures HR managers at any location can work seamlessly through the candidate's secure, unified electronic file.

"While the SSN Verification can be performed today at post-hire directly through the SSA, by using Abso's SSN verification service HR managers can eliminate extra manual processes, reducing the impact on their resources and speeding time to hire. Abso SSN verification is another value-added service that unifies the complex hiring process into a single, streamlined workflow," stated David Dickson, Vice President of Market Operations at Abso.
