Dear Friends and Colleagues,

Located one mile East of historic Gettysburg, the Drummer Boy Camping Resort offers 342 spacious campsites plus 32 cabin and full service cottage rentals. This is scattered over 90 beautiful acres of woodland. With our fantastic location, plus the excellent ratings we've received from Woodall's,(5w5w) and Trailer Life,(9, 10, 9.5) our resort is considered to be one of the top camping locations in all of Pennsylvania!

One of the latest amenities we offer is WiFi Internet service. Why? Well, it's simple; our campers expect it. Due to the amount of property we have, hilly terrain, and dense foliage our park is beautiful but unfortunately not an easy wireless deployment. We were told that servicing the entire park would be a highly expensive and nearly impossible undertaking. WiFiRV stepped up, performed a professional site survey and presented us with a solution nearly five times less expensive than other providers. We are now in our second season with WiFiRV and recommend if you have an existing wireless service that you aren't happy with or simply need this amenity, then you at least should get WiFiRV to propose a solution for you – if anyone can make it viable they can.

When we selected WiFiRV, we could tell they were different from other providers because of the partnership structure. They didn't sell us a solution but instead the CEO and Director of Technology went into business with us through an attractive revenue-sharing agreement. In our peak months all the monthly costs of the amenity end up essentially free to the park because of how WiFiRV packaged our solution. Their 24/7 customer and technical support, annual equipment checks, and clear communication is a standard that take them to the front of the crowd. It's as they say, *the premier full service turnkey WiFi Internet solution provider for the RV industry.*

If you want to maintain Class A quality consider WiFiRV. You'll be impressed with their drive and ability to structure a deal to meet your park's needs.

Respectfully,

David Gonick
