

WIFILAND'S HOTEL PACKAGE

*Attract Business Class Clients
Generate Additional Revenue
Offer Premier Wireless Services*

Wireless Amenities Create Guests

Are your business class guests insisting on high-speed Internet access? Seek to attract profitable trade shows or conferences that require high-speed data? Need to differentiate your facility in the competitive hospitality industry? WiFiLand offers economical, undistruptive, and secure wireless technologies that will increase your service offerings as well as your revenue! The WiFiLand wireless network provides Internet access throughout the rooms, conference facilities, and shared facilities such as the lobby, beach, marina, pool, or gardens.

Resort owners or managers who want to offer high-speed Internet have lucrative options with WiFiLand's revenue sharing plans. Provide freedom and premier services to your guests and attract new clients while you leapfrog your competition. WiFiLand can accommodate many of your facility's technology needs. Our Hotel Package is what you have been waiting for!

FEATURES:

- Secure, scalable, high-speed, and reliable wireless data for less than extremely expensive and disruptive wired solutions.
- Fully managed and supported services offering guests wireless Internet access throughout the property while providing your facility an additional revenue stream.
- Free web site hosting, emails, Internet access for the facility management, and a variety of customer support plans.

FREE TO BE...
