AimCa⁺⁺ DONANTM

Natural Calcium & Mineral Supplement*

Premium Quality of Liquid Matrix

Inspired by Nature. Designed by pharmacists.

Contains

DONAN

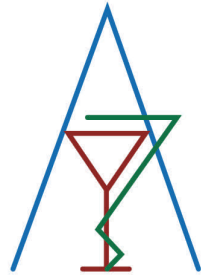

DONAN Yonaguni Fossilized Coral Mineral

From

 **Coral International Co., Ltd.**

JAPAN

Supplement Facts

Serving Size: 4 ml

Servings per Container: 15

	Amount per Serving	%DV**
Calories	5	
Calcium from DONAN (Yonaguni Fossilized Coral Mineral)	1,000mg	100%
AIMix SorbTM	80mg	*

Proprietary Blend of

SunSea Mineral (Ionized Coral Mineral from Japan)

Nuti-Masu (Sea-salt Mineral Complex from Japan)

Sunfiber RTM (Galactomannan: Partially Hydrolyzed Guar Gum)

*Percent daily value not established

**Percent daily values are based on a 2,000 calorie diet

Other Ingredients: XyliSorb 300, Lycasin 80/55, Vegetable Glycerin, Purified Water, Natural Flavors

Direction: As a dietary supplement, take 2 ml two times a day.

Dose: 4 ml/day.

Shake well before use.

Store in cool and dry place.

Shelf life: 18 months.

Consume in thirty days after opening the pack.

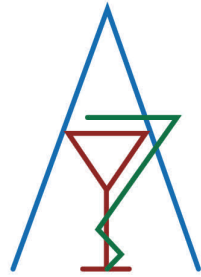

Warning: Consult your doctor or health care professional. Keep out of reach of children. Do not use if you are pregnant, nursing or have a medical condition.

- ◆ Highly bioavailable actives along with other natural micronutrients present in the formulation of liquid matrix
- ◆ Pleasant palatability liquid matrix with no untoward after-taste
- ◆ Composition of premium, high quality, clinically proven ingredients

This is a completely natural product. It contains no preservatives or artificial colors. Glass packaging extends natural freshness and helps maintain potency.

Salient features

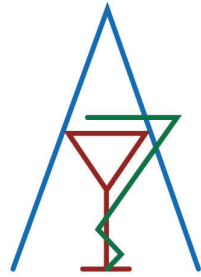

- DONAN Yonaguni Fossilized Coral Mineral from JAPAN
- Gamut of trace-minerals from premium and natural sources
- Low sodium-content Nuti-Masu sea-mineral complex from JAPAN
- Unique matrix of natural sweeteners
- Natural additives with pleasant taste
- Holistically balanced liquid concentrate
- High elemental Calcium content: ~40%
- More than 85% of coral is calcium salt and other 15% is the minerals of fine quality
- Enhanced bioavailability due to the combination of minerals and soluble fibers

Beneficial effects*

- ◆ Complete source of natural calcium and minerals in palatable form
- ◆ Natural Calcium for bone development
- ◆ Strengthen entire skeletal structure and teeth
- ◆ Enhanced absorbability due to highly ionized coral mineral complex
- ◆ Reduction in the acidity-induced gastric reflux due to the natural composition of the formulation
- ◆ Ease of digestion and highly bioavailable form of calcium and other minerals
- ◆ pH-balanced formulation for optimum stability
- ◆ Low glycemic index of the formulation
- ◆ Contribution in the gastro-intestinal detoxification activity due to unique capillarity and toxin-adsorption action of coral particles

- DONAN from Coral International Co. Ltd., Japan
- DONAN Yonaguni Fossilized Coral Mineral harvested from inland fossilized coral ore deposits in different regions
- The best fossilized coral ore deposits on the specific area on Yonaguni Island in Pacific Ocean. This area was formed by the corals, which were alive in the 3rd Interglacial epoch, approximately 72,000 to 150,000 years ago
- DONAN Yonaguni Fossilized Coral Mineral is an aragonite-type source of natural Calcium
- The aragonite-type fossilized coral calcium carbonate ionizes easily and disperses 5~6 times faster than calcite-type calcium carbonate in water
- DONAN Yonaguni Fossilized Coral Mineral contains 74 different minerals and trace minerals
- Although calcium is among the most difficult of the essential minerals for the body to absorb, DONAN allows easy and quick absorption into the body and skeletal assimilation
- Fine powder with granules no greater than three microns
- Fine and intricate capillarity of DONAN increases an adsorption of toxins in digestive track
- Enhanced cumulative area due to fine tubular structure of micronized particles provides largest activated surface for maximum adsorption of toxins
- Physico-chemical characteristics of DONAN have been retained and kept intact in the formulation in its pristine form
- Provides other minerals, including potassium, magnesium, manganese, and sodium
- Fulfills daily requirement of Calcium for an adult
- Liquid Coral formulation allows maximum exposure of cumulative activated surface area of coral mineral thereby enhances the bioavailability of elemental calcium and other supportive minerals

Formulating Innovation

SunSea Mineral (Ionized Coral Mineral from JAPAN) is a highly ionized coral mineral complex with deep-sea water from Japan. SunSea Mineral yields broad spectra of elemental profile of various essential minerals. It contains more than 70 kinds of mineral ingredients, such as calcium, magnesium, potassium, and sodium. Aim Pharmakon has incorporated this premium quality, exclusive ingredient from Japan in the formulation.

Nuti-Masu (Sea-salt Mineral Complex from JAPAN) is a premium quality sea-salt complex harvested from pacific ocean waters near pristine island-coast in Japan. Nuti-Masu has unparalleled low sodium content and right proportion of calcium, magnesium and other elements, including trace minerals. This ingredient is a Guinness Book of World Record Gold medal recipient. Nuti-Masu is manufactured using a patented *Green-house* process. Aim Pharmakon has incorporated this exclusive ingredient from Japan in the formulation.

Sunfiber RTM (Galactomannan, which is a Partially Hydrolyzed Guar Gum) is among the most adaptable dietary fiber and delivers high fiber content. It is clinically proven to lower glycemic index and improve mineral absorption.

This liquid formulation contains no preservatives. Do not touch the glass-pipette of the dropper to avoid contamination.

AimCa⁺⁺DONANTM

Natural Calcium & Mineral Supplement*

The presence of soluble fiber enhances the absorption of wide spectrum of minerals in the formulation. High-mineral content, in turn, potentiates the absorption of calcium and other minerals, including trace minerals from DONAN that are essential for bone health. The synergistic balance of minerals and fiber helps achieve the optimum health advantages with regular diet and exercise.
