Pneumatic Oxygen Conserving Regulators

Pneumatic Oxygen Conserving Regulators conveniently combines Regulating and Conserving functions into one lightweight device. A conserver automatically senses the patient's inhalation cycle and delivers the prescribed liter flow only during inhalation. **Conserve oxygen! Improve patient satisfaction! Reduce deliveries!**

Tru-Dose™ SL

Single Lumen Conserving Regulator

- High conservation ratios of up to 5.6:1
- Single Lumen Pulse provides a quiet delivery of continuous and conserving flow and improved comfort for the patient
- Fully Pneumatic

Product Features:

- 6 Conserving flows (1,2,2.5,3,4,5 LPM)
- 3 Continuous flows (2,3,4)
- 7' Single Lumen Cannula is included
- Inlet connection: CGA 870
- **Part Number: MSL-800**

Tru-Dose™

Dual Lumen Conserving Regulator

- Conserving ratios up to 3:1
- Continuous and Conserving flow on all settings
- Fully Pneumatic

Product Features:

- 11 Flow settings, from 1 to 6 LPM
- Inlet connection: CGA 870
- 5' Dual Lumen Cannula is included
- **Part Number: MTD-800**

OxyTOTE™ Portable Oxygen System

The OxyTOTE™ All - in - One Oxygen system, with SureClick™ is the ideal portable oxygen system for transporting and dispensing oxygen in one easy-to-use arrangement. The SureClick™ feature, a click-style regulator, ensures accurate liter flow and increases efficiency.

OxyTOTE™

- Easy to use all-in-one design
- Includes assembled aluminum cylinder and regulator
- Refill through CGA 540 port with check valve
- 5 Year Warranty

Product Features:

- **Part Number: MTS-603**, DISS Included (Flows: 0.5, 1.0, 1.5, 2, 3, 4, 6, 8, 10, 15, 25, AUX LPM)
- **Part Number: MTS-503**, DISS Not Included (Flows: 0.5, 1.0, 1.5, 2, 3, 4, 5, 6, 8, 10, 15, 25 LPM)

Patient Care Oxygen Flow Regulator Mini Regulator

MLC™ Mini Regulator is the durable and affordable choice for your continuous flow oxygen delivery process. Hospitals and Homecare Providers use the MLC™ with confidence!

MLC™- CGA 870

- Securely clicks into flow settings
- Internal safety relief valve
- Brass-core technology improves durability and stability
- Sintered filter for additional safety and longer regulator life

Product Features:

- Inlet connection: CGA 870
- Maximum inlet pressure of 3000 psi
- **Part Number: MLC-108** (Flows: 0.5, 1.0, 1.5, 2.0, 2.5, 3, 4, 5, 6, 7, 8 LPM)
- **Part Number: MLC-115** (Flows: 0.5, 1.0, 2.0, 3, 4, 5, 6, 8, 10, 12, 15 LPM)

Emergency Oxygen Unit Portable Emergency Oxygen Unit

oxyQuik™ Emergency Oxygen Unit is one of the most important safety preparedness tools everyone should have.

oxyQuik™

- Fast and easy One-Touch design
- Refillable oxygen cylinder
- Comfort fit mask for adults and children
- Emergency Oxygen training included
- Dedicated customer support center

Product Features:

- 240 Liter 'C' cylinder
- Complies with the Emergency Oxygen Regulation of the FDA
- Adult/Pediatric mask, 7' hose
- Size: 5.5" x 20" long
- Weight: 9.5 lbs
- Universal CGA 540 Fill Port
- **Part Number: Quik-2**
