ParetoLogic DriverCure

Fix and Update Drivers and Software Instantly!

DriverCure – Detailed scanning results show you which drivers you need

Key Product Features:

- No more worries about whether hardware devices will work as you will always have the right driver

- Improved performance and stability with the latest Vista and Windows drivers for your printer, media player, scanner, sound card, digital camera, graphics card and other devices

- Automatically set a system restore point for easy recovery

- Email notification when new drivers are available.

- Monitoring a growing list of over 4,000 software applications and more than 3,000 hardware vendors

No more worries about downloading faulty drivers or malware

Does your new scanner not work?
Is something suddenly wrong with your media player?
It is likely not a problem with the software or the hardware device, but rather the driver. Windows and Vista drivers are very important in keeping your computer working at its best, by helping your components communicate and work together. When you don't have the right driver or your drivers are outdated, the communication is garbled or blocked.
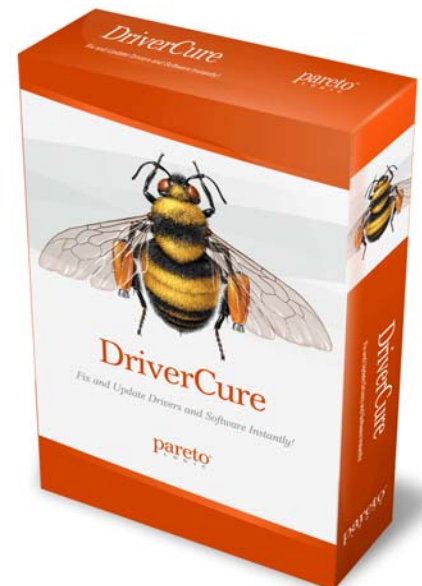

Are you tired of trying to find the right drivers?
Keeping your drivers up-to-date can be very frustrating. Some companies revise their drivers several times a year. Some people try to update their drivers by manually searching online. ParetoLogic DriverCure makes it easy — you don't have to spend your hard-earned money on expensive technicians.

Keep your PC in top shape!
ParetoLogic DriverCure removes all of your worries about drivers and hardware devices. With the right drivers, you will be assured of your devices working, better performance and access to the latest available features. Get more out of your PC, get DriverCure!

"I can't thank you enough for DriverCure. I bought a scanner and it just Would not work! I thought I had bought a lemon. DriverCure found the Driver I needed and I was ready to go."
Timothy T., Canada
