BCS ProSoft Named a Technology Pacesetter for 2008

Leading supplier of ERP, CRM, and HRMS solutions recognized by Accounting Technology magazine for the fourth year in a row.

San Antonio, TX-January 27, 2009-BCS ProSoft, a leading business software solutions provider, is proud to announce that it was honored with the Technology Pacesetter 2008 award by Accounting Technology magazine. The magazine gives this award each year to 100 organizations that provide financial midmarket applications. This marks the fourth straight year that BCS ProSoft has received this recognition. BCS ProSoft is a National Partner for Sage Software, specializing in Sage MAS 90, 200, and 500, Sage SalesLogix, and Sage Abra HRMS. Additionally, BCS ProSoft is a rental industry software leader with its popular Automated Rental Management (ARM) solution.

The goal of the Pacesetter award is to honor firms of quality that carry accounting software as the central part of their product line regardless of the size of the firm. Vendor awards factor strongly into the selection process, and BCS ProSoft was named to both the prestigious Sage President's Circle and the Sage Million Dollar Club for 2008 in recognition of outstanding sales volume in the Sage MAS 90 and Sage MAS 200 ERP product line.

"Pacesetters are selected for a wide range of criteria, such as substantial growth, their leaderships' influence and involvement in the accounting software community, and recognition from the companies whose software they market," said Robert Scott, editor of Accounting Technology. "All of these factors help us recognize quality businesses, regardless of size."

"In the midst of a tough business climate, BCS ProSoft continues to deliver solutions of value to our clients," said Clark Haley, president of BCS ProSoft. "Our clients recognize that the strategic use of technology is an important asset as they look for leaner and more efficient ways to operate. We're proud to share this recognition with other firms that share a similar commitment to quality and value."

The names of all 100 organizations were published in the December 2008 issue of Accounting Technology and can be accessed at <http://www.webcpa.com/article.cfm?articleid=29924&pg=ros>
