

How do you ensure your event's success?

After extensive research, Homeingle addresses the seven most vital aspects for successful events.

1) Create Event Details & Guidelines

Communicate these items for participants and volunteers to ensure everyone is informed from day one.

2) Promote the Event

Invite prospective participants already on Homeingle or via email.

3) Find Volunteers

Search the Homeingle community for volunteers with specific skill sets and availability to lend a hand with your event.

4) Manage Resources

Ensure no more double-booking of your group's resources. Utilize the Homeingle resources manager to check out resources from your group for the event.

5) List Your Needs

Easily notify your members, community, and local businesses of the product, service, or sponsorship needs you may have.

6) Assign and Manage Tasks

Keep your event on schedule. Create and delegate tasks to your members with deadlines to oversee the progress.

7) Communicate

Need to make changes to an event? Quickly contact organizers, participants, and volunteers through email alerts and group messaging on Homeingle.

How do you get started?

Homeingle.com will be launching in January 2009. Get started early by joining our mailing list at www.homeingle.com to be notified of news and stay updated on our January launch.
