

FIND OUT WHAT YOU CAN DO.

INDEPENDENT CONSULTING MADE EASY

When you join MBO Partners, we open a division of MBO Partners just for you. Bring your talent and clientele. We handle the busy work so you can focus on doing what you do best: consulting for your clients.

Set your bill rate, line up projects. We provide the legal structure and insurance umbrella, we bill and collect from your clients, set you up with benefits, and handle your taxes and expenses. You have control through our proprietary online system, MyBizOffice, and the support of your Business Manager, a resource for everything from invoices to benefits. Moreover,

the profits are yours. The value that MBO Partners offers you surpasses the modest fee we assess on billings, and we're confident that when you talk with our experts, you'll agree.

WITH MBO, GOING SOLO DOESN'T MEAN GOING IT ALONE.

GET WHAT YOU'VE BEEN LOOKING FOR

Whether you're already an independent contractor, or just thinking about going out on your own, you owe it to yourself to find out about MBO Partners. Our powerful and flexible business model is here for you to use however you like. Work solo, or in teams. Run a consulting firm. Broker projects to other consultants. Hire staff through us to grow your business.

Do what you want: the business is yours.

The secret we invented is called Portable Employment: working through us as you go from client to client, and project to project. You win the simplicity of doing taxes as a W-2, and we use our corporate structure -- that business division in your name -- to set you up with an expense reimbursement program that rivals the deductions you could take as a self-incorporated entity. And as our employee, you get access to blue chip programs like medical, dental, life, and disability insurance, as well as our 401(k).

While this might sound too good to be true, the fact is we've been making life a whole lot easier (and more profitable) for talented independent consultants for over 22 years. Find out for yourself why our Associates ranked our company more highly than the benchmarks set by the FORTUNE 100 Best Companies. Find out why the biggest source of new individuals joining MBO Partners is word of mouth referral. And best of all, find out what you can do.

Since 1986, we've been helping independent consultants and their clients work together. MBO Partners is the preferred alternative to self-incorporation for talented people.

IT'S YOUR TALENT; OWN IT

Consulting through MBO Partners is like being a partner in a law firm; you have the power of the corporate infrastructure, and are responsible for building your own business.

The MBO Partners model is for true independent consultants, business owners taking responsibility for success. We empower you with every advantage of our corporate umbrella: big company benefits, advanced technology, global contracts, and expert back office administration. Your job: be excellent.

THE MBO EXPERIENCE

"The benefits of working through MBO Partners cannot be overstated: the MyBizOffice technology, the high-touch service, the group benefits, that buffer between you and your clients . . . but most of all, the unsurpassed freedom."
