

## Mobile Retail

### Mobile Retail Solutions

*“We sold 30% more than last year at the same event since we were able to do the transactions in half the time.”*

Do you have high volume sales periods when you need to process sales faster? Do you sell merchandise outside of a retail store? Would you like an easy and affordable solution to do a fast and accurate inventory count with less time and less customer disconnects?

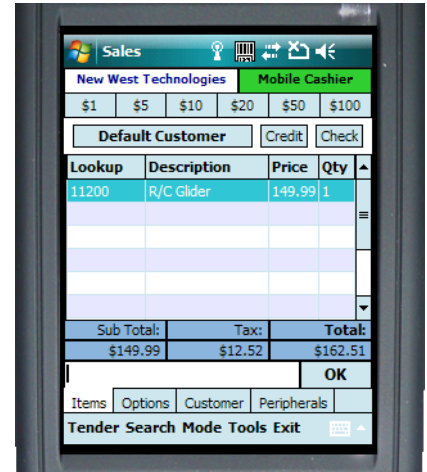

Mobile Retail gives you the power and functionality of a traditional POS system on a handheld device. This gives you and your staff the freedom and versatility of mobility while maintaining the robust nature of a full retail system.

## Mobility

Process a sale or manage inventory any time any place with our Mobile Retail solutions. They extend Microsoft Dynamics Retail products and place all the tools you need to process orders and manage inventory on a hand held device including Mobile POS.

Use our Mobile Retail solution to:

- Provide outstanding customer service by equipping your sales associates with the tools they need to help your customers.
- Increase accuracy and productivity when working with inventory whether that is counting, receiving, transferring or changing the prices.
- Reduce the time customers wait in line using mobile POS
- Save on equipment costs and use your floor space more efficiently
- No customer disconnects

## Mobile Suite Pro
