Smart Growth: Doing More with Less

In these tough economic times, emerging businesses must cut costs to preserve cash but must do so carefully so as not to damage the overall viability. This event will feature a panel of experienced entrepreneurs that will discuss best practices around how to create a new lean organization and focus it on retaining existing customers and acquiring new ones.

As part of this event, there will once again be an Emerging Business and Technology Showcase (see below for exhibitors).

Moderator

Kim Hart
