UPC: 639191700668

ISBN: 978-3-86786-554-8

75 awards refers to the following versions of MAGIX Movie Edit Pro (Classic & Plus versions): 6, 7, 8, 9, 10, 11, 12. Award wins from other countries refer to the country-specific version. More information at www.magix.com.

PC Advisor, March 2008

"You won't get more for your money anywhere else."; "... a one-stop solution to home video production..."

These press comments refer to previous versions.

PC Utilities, No. 99

"An accessible and powerful video editing package, which represents impressive value for money"

For all who want more!

Experience the new standard for perfect video editing: MAGIX Movie Edit Pro 15 Plus. The 75-time award winner** convinces not only with its high-quality edit functions and an excellent dubbing, but also with countless special effects and many new improvements that will excite you!

NEW!

- MultiCam editing (for 2 cameras)
- Animated menus for Blu-ray Discs™
- 3D presets for realistic 3D title effects
- Easy color correction (color wheel)
- Native AVCHD editing
- Simplified effects control
- Flexible user interface
- Quick navigation using shortcuts
- Batch conversion (for complete folders)
- Many new DVD menu templates

Reads videos from any source: AVCHD and (H)DV camcorder, DVD recorder, webcams, digicams, cell phones, etc.

NEW! MultiCam editing (for 2 cameras)

Edit videos like a pro: You can now perfectly synchronize recordings from 2 different video cameras, which film the same event (e.g. concert, wedding, etc.). Simply import both recordings synchronize using parallel image or sound sequences and then select the best scenes into the video window simply using a mouse click. Movie Edit Pro 15 Plus then automatically creates a new video track, where various camera changes are integrated.

NEW! Native AVCHD editing

Do you have an AVCHD camera and would like to import and edit your recordings directly without cumbersome recalculation? Then, Movie Edit Pro 15 Plus is the optimal solution: import AVCHD material with one click, optimize and dub perfectly, burn to Blu-ray Disc™ with an animated menu and present on TV! Brilliantly sharp, professional results guaranteed!

NEW! New, professional editing functions

MAGIX Movie Edit Pro 15 offers even more professional editing functions to users with high demands: from easy color correction to an improved keyframe control, re-worked effect control and much more. In addition, the Plus version offers countless high-quality templates for breathtaking 3D title effects.

NEW! Completely new, re-worked interface

The new interface makes editing your movies even more fun than before. All important functions are in plain view and can be reached directly via the interface. In addition, all elements of the user interface can be freely arranged and moved – just how you want them.

Movies with Dolby® Digital 5.1 sound

With the integrated Dolby Digital 5.1 Creator (fee-based plug-in purchase required) you can put your videos into a new sound dimension. You can assign sound effects to characters in space or let sounds fly through the room from one loudspeaker to the other. Just like at the movies! With Dolby® Digital 5.1 Creator the sound in your movies will be just as captivating as the video!

Automatically create DVD menus with images from your own project

Unique and only from MAGIX: Using motifs from your video project you can automatically create DVD menus indistinguishable from those found on store-bought movie DVDs in just minutes. A selection of high-quality animation effects ensures lots of variety in your menu composition. Amaze your family, friends, and neighbors with your creative results – can also be given as a personalized gift!

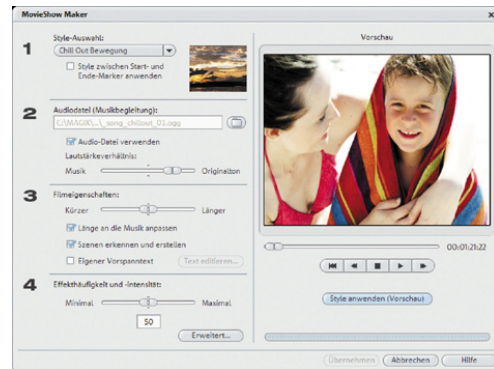

NEW! Animated menus for Blu-ray Discs™

Burn your movies with professional animated menus to Blu-ray Discs™. You have a choice of a wide range of high-quality menu templates for every topic.

Automatic editing: 15 themes to choose from

Do you have minimal or nonexistent video editing experience? MAGIX MovieShow Maker turns your videos with just one click into fantastic movies. Choose from 15 thematically sorted motifs, and the rest happens automatically. Lean back, relax, and enjoy perfect results: Impressive effects, professional cuts, and harmonic transitions. Video editing has never been so easy!

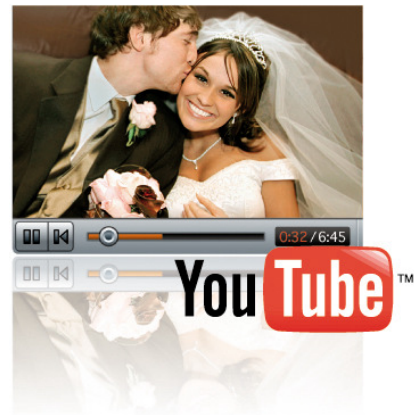

Batch processing

Do you want to process multiple video files into another format in one go? No problem! Mark as many files in a folder as you want with the comfortable batch processing feature and start conversion. Presto!

Put videos directly on YouTube™

Would you like to present your videos online? Export your clips directly from Movie Edit Pro 15 to YouTube™ and become an active member in the biggest video community in the world. It's easy – just a few mouse clicks and you are done. Your video is online and can be viewed around the whole world!

Support for NextGen games consoles

With MAGIX Movie Edit Pro 15 you can turn your games console into a digital video player: simply export your videos in a format supported by your console and enjoy your videos in the highest quality on your TV!

Record directly from computer screen with screen capturing technology

Would you like to be able to capture videos that you see on your monitor? MAGIX Movie Edit Pro 14 can do this easily! The smart screen capturing technology lets you record Internet videos during playback and use them in your projects after saving as a file.

BONUS! NEW!

Travel route animation

Vasco da Gama 3 MAGIX Edition

Ideal for visualizing animated vacation routes – in full HD quality. Show your family and friends the course of your travels by land, air or water.

- **Free scalability:** for objects and maps
- **Maps included:** Includes comprehensive map material in standard and HD resolution.
- **Helpful video tutorial:** for a quick start

BONUS! NEW!

3D realtime animation software

Reallusion iClone 3 SE

Easily create speaking, three-dimensional characters and even whole 3D worlds, which you can export directly into your video projects.

- **3D realtime animation:** Directly adjust movement sequences
- **Character creation:** incl. mimic and lip movement
- **Quick rendering:** Output in PAL or NTSC format

The Plus advantages at a glance:

- **99 tracks** for video, audio, photo and text
- **IMPROVED!** Current HD camcorder support
- **Creation of surround sound** (Dolby Digital 5.1 Creator)
- **NEW!** Native AVCHD editing
- **Screen capturing:** Record movies directly from your monitor
- **Advanced DVD & Blu-ray Disc™ menu design**
- **Audio Mastering Suite:** for professional audio editing
- **IMPROVED! Re-designed key frame control**
- **NEW!** Impressive title effects with 3D presets
- **NEW!** Innovative MultiCam editing (for 2 cameras)
- **IMPROVED!** New **color correction dialog**
- **NEW! Batch processing** (now also for entire folders)

Advanced functions

- **Web DVD projects:** Present video projects online as an interactive web DVD – including animated menus!
- **Noticeably smoother performance** on PCs with Dual Core processors and/or GPU support.
- **Use animated Internet graphics**, ClipArts, etc. as decorative elements (animated GIF Import)
- **Enhance landscape photos with creative effects**
(Avoids black bars, etc.)
- **Present videos in the MAGIX Community and meet other users with similar interests**
