## Pharmacy & Long-Term Care Solutions—LTCIntegrator Datasheet

### LTCIntegrator Suite—Don't Leave Your Information Behind

- Platform Assessment
- Business Process Definition
- Legacy Data Conversion
- Customized Business rules
- Migration, Transformation

Are you considering moving your Pharmacy Management System to FrameworkLTC®? Is your Pharmacy and Long-Term Care data disparate, decentralized and outdated?

Don't be constrained by the inconsistencies of your existing data or fear the validation costs and efforts for your complex Rx Compounds and Formularies.

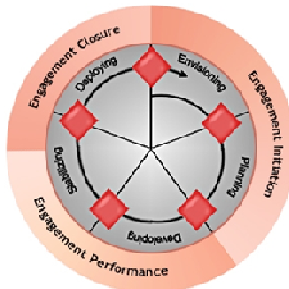

Blue Chip Consulting Group (<http://www.bluechip-llc.com>), has built a suite of programs to securely and accurately Archive, Migrate or Convert your LTCP information, assuring you can 'Fill and Bill', without 3rd party assistance the day after your migration.

#### Platform Migration Methodology

Blue Chip brings years of best-practice, technology transition methodology and Pharmacy and LTC industry understanding. Additionally, Blue Chip offers effective technical & business focused envisioning and planning for your implementation and migration. These assessments are paramount so as to uncover your data model and business processes; both of which are necessary to enhance existing LTCIntegrator Business Rules.

#### Blue Chip Toolset

LTCIntegrator is a proprietary suite of tools developed exclusively for the Pharmacy and

LTC industry. Existing Pharmacy Management Systems house data in various formats and locations. Data mapping can be excruciating. Our toolset, governed by Business Rules, alleviates the pain, cost and headaches otherwise associated with the migration process. We identify, cleanse, DC and standardized your LTCP data in FrameworkLTC®.

*"Our need is to be able to 'Fill and Bill' the day after our migration"*

#### Data Types Migrated

- Patient History
- Institutional pharmacies and facilities
- Rx and pharmacy specific formularies
- Insurance and electronic claims history

#### Pharmacy & Long-Term Care Solutions

## Value Proposition

Not sure of the challenges a new Pharmacy Management System might bring to your organization? Let **Blue Chip LTCP Solution Architects** review your implementation and legacy data options.

You may justify the costs / risks of outsourcing your Pharmacy Operations related to this PIS transition. However, you require an Archive of your existing data. Let **Blue Chip** create a Snap-Shot of your legacy data using our proprietary toolset.

Streamlined solution to automate the population of FrameworkLTC®. 'Simple' Business Rules have been built within our LTCIntegrator system to assure the most necessary and most critical information is brought forward.

**Blue Chip Solution Architect** will work with your Pharmacist and management teams to tailor a custom solution to meet your most demanding LTCP needs. All aspects of your implementation and data access is planned and executed.
