## arts camp

for young people

Founded in 1965, SFArtsED is distinguished by its wide array of arts experiences that ignite and educate the imagination. Based upon the philosophy of founder and renowned artist Ruth Asawa, over 200,000 children have participated in SFArtsED programs. Our organization holds steadfast to the belief that the investigation of the arts enriches the lives of young people as it promotes personal growth and a commitment to life long learning. Six school based programs that connect professional artists with young people enliven our mission of providing participatory experiences in the arts to the children of San Francisco so they are better equipped to make use of their creative abilities in all aspects of their lives.

### our programs include:

- Artists in Residence
- SFArtsED Players
- SFArtsED Summer
- Visual arts exhibitions
- After School extended learning programs
- Mentorships

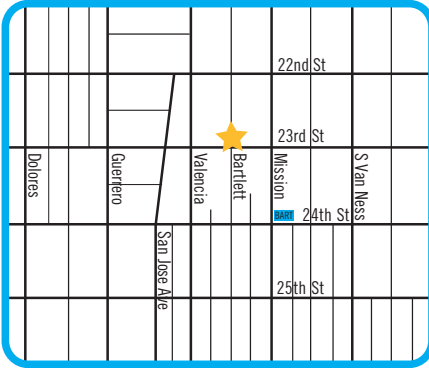

**the mission** of the San Francisco Arts Education Project is to provide participatory experience in the arts to the children of San Francisco so they are better equipped to make use of their creative abilities in all aspects of their lives.

**We believe arts education is vital** to young people as part of their educational and social development.

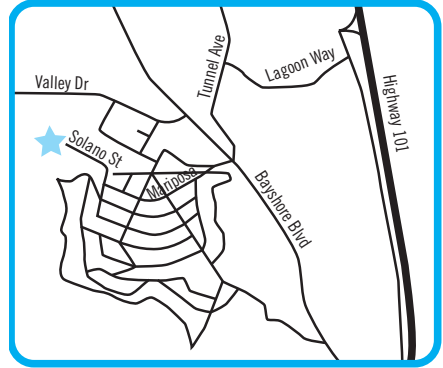

**We believe children learn best by doing** and that bringing artists and children together has a strong positive impact on their mutual ability to develop individual creativity and creative thinking.

**We believe that direct experience with the arts** gives children the opportunity to become future artists, audiences, and informed citizens who can understand and make use of their cultural birthright.
