

# Chemical Notification Food Contact 2009

The 2<sup>nd</sup> annual **Chemical Notification/Food Contact World Summit** will provide a practical, real-world guide to submitting new chemical notifications according to international guidelines. With an impressive line-up of speakers from agencies around the world, this conference is the global event to receive the most up-to-date information in today's market.

**Just announced!** We welcome Ralph Simmons, Regulatory Consultant with Ciba Expert Services to the program as chair of the Food Contact sessions.

Last year's event brought in a wide cross-section of the chemicals industry, including representatives from: **Eka Chemicals, Chevron Energy Technology Company, SC Johnson & Son, LyondellBasell Industries, Wacker Chemie AG, Bayer Materials Science, Rhodia, Hercules, Ciba Specialty Chemicals, BASF** and many more. This conference provides an opportunity for government and industry to learn from each other through high-level presentations, discussions and numerous networking opportunities.

#### Topics to be discussed include

- The next step toward achieving REACH compliance - 2010 and beyond
- Guidelines for new chemical notification in Canada
- What's happening in China regarding food contact and new chemical notification
- Making sense of the notification process in Japan
- An update on regulations in the US
- Cutting-edge case studies from industry leaders
- Global coordination and compliance - is it attainable?
- Green chemistry initiatives and product stewardship

**Programming is underway and updated conference information can be found on our website at [www.chemicalnotification.com](http://www.chemicalnotification.com).**
