Project Experience: Developing the 1st 10:15 Wind-Diesel Hybrid Power Station on Con Dao Island

- Project feasibility & challenges
- Distribution & transmission infrastructure constraints?
- Prospects of wind energy projects within the Mekong

Dominik Reiner, CEO

Aerogie.plus Solutions AG

- 10:50 Discussion followed by Refreshment Break
- **Cost Competitiveness of Biomass/** 11:20 **Biogas to Power Projects**
 - · Practicality issues of using fossil fuel vs. bio-fuel
 - Scalability of developing biomass power plants
 - Resources availability and types of feedstock
 - · Incentives in developing biomass to power projects

Palm Husk (EFB)-Fired Power Plant – 11:55 **Operational Challenges & Experience**

- Securing feedstock resources
- Project viability & advantages
- Carbon credit opportunities?

Pongsatit Rajatanavin, Project Coordinator

Surat Thani Green Energy Co. Ltd.

CDM & Power Projects – Options, 12:30 **Opportunities & Obstacles**

- Implications of carbon management for the power sector
- Mechanics of alternative source of revenue
- Trends in cleaner power generation & generating carbon credits
- Final Discussion followed by Closing Lunch 13:05
