Why Choose Kerio MailServer Over Microsoft Exchange?

inftek

Better cross-platform collaboration
- Easier to share folders than Exchange.
- Integrated CalDAV server for cross-platform calendaring with Apple iCal.
- Full-feature support for Safari and Firefox.

Less administration hassle
- Install Kerio MailServer in minutes.
- Less complicated administration with easy to find and highly intuitive settings.
- Greater stability and better uptime.
- Lower IT requirements. Just set it and forget it.

More cost-effective
- Get five products in one: collaboration server, mobile email, email security, email compliance, and server backup.
- Install Kerio MailServer on a workstation and save on the operating system cost.
- Active Directory not required.
- Lower total cost of ownership.
- Scale as storage and user count grows. One version for all sizes.

More Than Just a Mail Server

Get Five in One

- Cross-platform collaboration
- Wireless mobile synchronization
- Robust email security
- Email archiving
- Automated backup

Reviews

"Excellent. Kerio MailServer is the only vendor to offer a complete cross-platform solution, supporting multiple protocols, working with CalDAV and iPhone."
Norbert Graf
Linux Magazin

"Kerio MailServer offers advanced anti-spam and anti-virus features, comprehensive connectivity, and strong mobile email support."
Jürgen Heyer
Internet Magazin

"Kerio MailServer was easier to use, less expensive, and provided more functionality than other products and provided the integration with Active Directory."
Akis Fotakelis
Windows IT Pro
