ADSS Global Ranks Number 20 In 2009 VAR 100 Listing

Sage business partner ADSS Global is ranked 20 out of the 100 top value added resellers in the U.S. by Accounting Technology magazine.

Exton, PA—April 21, 2009—ADSS Global, a business software solution provider specializing in the sales, installation and support of Sage Accpac ERP and SageCRM, announced today that the company was included in a listing of the nation's top 100 value-added resellers (VARs). ADSS Global ranked 20 out of 100 in Accounting Technology magazine's 2009 VAR 100 listing. This is the fifth time in as many years that ADSS Global has been included in the magazine's list.

Each year, Accounting Technology recognizes the country's top 100 value-added resellers of mid-level accounting software packages. VARs are selected for the list and ranked based upon company and revenue size for the 2008 calendar year, as well as the variety and value of the accounting software solutions they provide. The list was published in the April 2009 edition of Accounting Technology magazine and its online counterpart, WebCPA.

"This has been a difficult year for much of the economy. Yet many of these businesses have not only weathered the storm, but improved upon their financial results for 2008," said Robert W. Scott, editor of Accounting Technology and author of the popular twice-monthly electronic newsletter, Consulting Insights.

"We continue to grow, even in challenging economic times," said Robert Campbell, president of ADSS Global. "We attribute that success to our ability to deliver world-class software solutions that add true value to our clients' businesses. To be ranked so highly among a field of thousands is a tribute to our staff of professionals whose continued focus on customer service drives our growth and success."
