# AEROSPACE GROWTH IN THE ASIA-PACIFIC: *Adding Depth to the Aerospace Value-Chain*

The Asia-Pacific aerospace industry has been on a dynamic growth curve in the last 5 years, with the global outsourcing trends leading investments in the region, as well as growing capabilities of aerospace suppliers in the region drawing in the OEMs and MROs globally to conduct business in the Asia-Pacific region.

The Singapore Aerospace Industry is a mature, vibrant one with strong projected growth over the next few years. Notably, the MRO hub in Singapore is indisputably the No. 1 Asia-Pacific MRO hub, with comprehensive MRO capabilities and key infrastructure. In the past 3 years, a growth area has been in the arena of Aerospace Manufacturing. The industry has seen major investments in this area recently, and more are in the pipeline.

The **Aerospace Supplier eXchange (or ASX)** underscores this critical mass of aerospace activities in Singapore, with the spotlight now on growing local aerospace manufacturers who are vital towards supporting the Tier 1 and 2 OEMs entering the Singapore scape.

A bi-ennial event, the ASX aims to be the premier event for all Tier 3 and 4 companies in the Asia-Pacific Region to exhibit their products and services, and one whereby buyers from the Tier 1 and 2 suppliers and OEM will view as vital to their sourcing needs.

*“Asia has become an established member of the aerospace industry’s supply chain... (Asia’s) ambitions certainly aren’t causing any retreat by Westerners. Quite the opposite: They are planning deeper investments and greater involvement in new projects with Asia partners. The size and complexity of the Asian market cannot be ignored.”*

Aviation Week and Space Technology 18/02/08

*“The ASX would be advantageous for companies looking to better manage costs, and also provides Singapore and the region with opportunities to showcase their expertise.”*

Fergus Lopez, Director, Asia Pacific, Africa and Middle East, Parker Aerospace

*“We need capable and sound Tiers 3 and 4 suppliers to support the OEMs aerospace manufacturers and maintenance companies so that they can in turn provide comprehensive solutions to the airlines. This is vital to continuing Singapore’s effort in attracting global players with extensive needs to set up key operations in Singapore.”*

Charles Chong, President, Association of Aerospace Industries (Singapore)

## AER SPACE 2009 EXHIBITION

Conference and Exhibition

Targeted at some 60 exhibitors led by a core Singapore Pavilion, procurement professionals and buyers will find all their sourcing requirements met by aerospace suppliers in this exhibition.

Suppliers at the exhibition may include MRO companies, aerospace manufacturing companies, support precision engineering companies, materials suppliers, distributors, machine tool companies, technology vendors, consultancy organisations and other supporting players for the aerospace industry.

Email enquiry: [exhibition@AeroSupplierX.com](mailto:exhibition@AeroSupplierX.com)

## AER SPACE 2009 CONFERENCE

Conference and Exhibition

In line with recent hot topics in the industry, the conference will see esteemed speakers in the area of green aviation, composites technology, safety and risk management, business strategy, procurement, aerospace supply chain, certification and regulations, and many more. Topics will focus on the aerospace industry's interests at large, encompassing requirements and topics for both the MRO and Aerospace Manufacturing community.

## GATE09

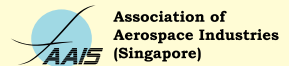

GLOBAL - ASIA TRADE EXCHANGE  
AEROSPACE

An initiative by International Enterprise (IE) Singapore, the Global-Asia Trade Exchange (GATE) enables Singapore companies to meet with key procurement decision-makers from global OEMs. Through a process of pre-qualification, we match buyers with the most suitable suppliers based on their requirements.

A global buyer-centric platform, GATE09 facilitates the sourcing of end-to-end precision engineering and electronics solutions from product design and development, prototype testing, production and assembly to supply chain and distribution services.

Find out how you can benefit from GATE09. Contact us at [asx@aaais.org.sg](mailto:asx@aaais.org.sg) today!

GATE09 is jointly organised by:

\* Procurement professionals and buyers, ask us about our VIP Programme! Email: [asx@aaais.org.sg](mailto:asx@aaais.org.sg)

## ASX 2009: EXHIBITORS & VISITORS PROFILE

### MAJOR EXHIBITOR PROFILE:

- Materials suppliers
- Machine tooling, jigs and fixtures
- Technology suppliers
- Logistics and supply chain management, asset management
- Fasteners and plastics
- Design and manufacturing

### MAJOR VISITOR PROFILE:

- Procurement Managers and Buyers
- Quality Assurance and Control Heads
- Operations and Production Managers and Supervisors
- R&D Heads of department
- OEM Business Development Heads
- Business Development Managers looking for distributors or joint venture partnerships

- The list is non-exhaustive and is a projected guide.
