MXP Mobile POS Solution

Imagine gaining the power and flexibility of mobility throughout your retail operations from mobile cashiers all the way to inventory management in one convenient and affordable package.

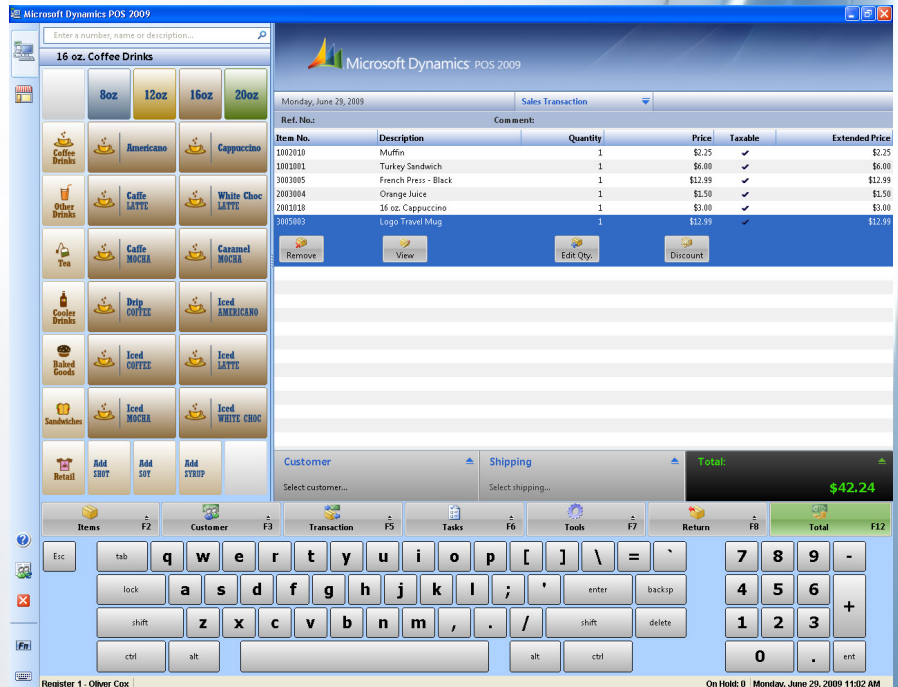

MXP combines the power of a terminal with the convenience of mobility. Process a sale or manage inventory any time or any place with one of our MXP solutions. They extend Microsoft POS 2009 and place all the tools you need to process orders and manage inventory in your hand. It's a mobile POS solution that can take your store operations to a whole new level of performance and profitability.

Use our Mobile X POS solution to:

- Real time tendering
- Improve staff efficiency
- Maintain better control over inventories
- Reduce the time customers wait in line
- Save on equipment costs
- Secure and reliable

The Mobile X extends Microsoft POS 2009 with all the mobile POS functionality your retail operations needs to process transactions on-the-go, work more efficiently and manage inventories more accurately. Use an MXP solution and your point of sale is anywhere you are. It delivers the flexibility to adapt to changing retail needs while keeping command over important inventory.
