The fastest way to fluency

Intensive English Course

Our most popular course. You can make rapid progress towards fluency with a course at your level, delivered at your speed, to your needs and level. Your progress is monitored from day one and you receive regular feedback throughout your course. You will be impressed at just how quickly your confidence grows as your English language skills improve.

Exam Preparation Option

Choose an option to your Intensive General English course. The Intensive Exam Preparation Option is aimed at exam students to help develop their language skills and techniques for specific, internationally recognised examinations, such as Cambridge Exams, IELTS, TOEIC, TOEFL etc.

Each course is designed to provide a balance of skills with emphasis on the student's weak areas and the specific requirements of the exam.

Learning for Pleasure Modules

Combine your General English course with a personal interest. Simply exchange English lessons for a module in your favourite interest. This makes a special project-based course which will give you a real sense of achievement (a minimum level of low-intermediate is advised). So instead of 15 lessons of English per week you may choose 10 English and 5 Creative Cookery. If you have an interest that we have not listed, we will do our best to come up with a programme especially for you.
