Terrell & Terrell, CPAs, LLP Offers Training on Sage FAS Fixed Assets

Clients benefit with a completely integrated fixed asset solution and hands-on classroom training from a certified instructor

Dallas, TX – September 2, 2009 – Terrell & Terrell CPAs, LLP, a leading professional services firm specializing in Sage Accpac ERP and SageCRM, will offer training on Sage FAS Fixed Assets on September 16-17, 2009.

Sage FAS gives companies complete control over their entire fixed asset lifecycle – from acquisition to disposal. With this increased control, comes the peace of mind that companies are properly managing and depreciating their fixed assets, which affects insurance and tax costs. Features include an intuitive interface, seamless integration with the Inventory, Purchas Order, Accounts Payable, and General Ledger modules, comprehensive reporting, and asset reconciliation.

“We are pleased to be offering Sage FAS and training to our clients,” said Brian Terrell, CPA and managing partner of Terrell & Terrell. “It is a direct reflection of our commitment to bring first-class solutions and training to our clients, especially when those products can help our clients reduce the costs associated with incorrect asset management.”

The Sage FAS solution is designed for companies of all sizes, regardless of number of assets to be tracked. FAS 50 Asset Accounting runs on a single Windows PC and is a cost-effective tool for managing fewer than 1,000 assets. At the high end, FAS 500 is multi-user and runs on Microsoft SQL Server.
