INFORMATION TECHNOLOGY STAFFING SOLUTIONS THAT WORK FOR YOUR BUSINESS

INTEGRUS Information Technology serves its client companies by acting as the single source for all of your staffing needs. Our staffing solutions reduce overall employment costs, provide staffing flexibility and help our clients maintain budget controls. We match staffing levels to your workload and project requirements, provide quick hiring versus lengthy direct placement cycles and provide the option to terminate contract placements at any time. Our interview process assesses real skills during the contract period ensuring that candidates fit your corporate culture and maintain budget controls as we help accelerate the pace at which projects reach completion. With INTEGRUS IT as your single-source staffing provider, you will notice a decrease in the number of staffing/recruiting vendors thereby simplifying invoice payment processing, reduce fill rates and enjoy the benefits of allowing your staff to return to their core competencies.
