

pH Meter Kit Provides Quick and Safe Food Analysis

COLUMBUS, Ohio (August 28, 2009) – METTLER TOLEDO, a leading global supplier of precision instruments, is pleased to introduce the FiveGo™ pH Food Kit—a portable pH measuring instrument designed for use in the food and beverage industry.

FiveGo™ pH

FiveGo™ pH, the handy, portable measuring instrument is ideal for anyone working on a tight budget, who nevertheless requires rapid and reliable results. FiveGo™ instruments all feature storage capacity for up to 30 measurements, including automatic endpoint recognition and calibration with automatic buffer recognition. Operation is easy and intuitive with dedicated buttons for starting and ending a measurement and for saving and accessing measurements and the latest calibration data.

FiveGo™ Food Kit

FiveGo™ Food Kit & LE427 Puncture Electrode

These user-friendly products have been designed with food applications in mind. They enable quick and safe measurements of solid samples, such as cheese and meat. The LE427 and FiveGo™ Food Kit provides the perfect solution for the quality control of foodstuff or agricultural products.

FiveGo™ pH – FG2 Food Kit includes:

- Compact pH meter FiveGo™
- Robust LE427 pH puncture electrode
- Buffer sachets for first calibrations

NEW LE427 Puncture pH Electrode

- Spear-shaped tip makes it easy to penetrate smaller samples, such as food or soil
- Gel electrolyte – easy to handle and low on maintenance
- Protective hard plastic cover for more safety and piece of mind

LE427 Puncture pH Electrode

METTLER TOLEDO is a leading global manufacturer of precision instruments. The Company is the world's largest manufacturer and marketer of weighing instruments for use in laboratory, industrial and food retailing applications. The Company also holds top-three market positions in several related analytical instruments markets and is a leading provider of automated chemistry systems used in drug and chemical compound discovery and development.
