WHAT IS POLYUREA?

Polyurea is the latest advancement in coating technology providing the best of all worlds. Its extreme durability makes it 4x stronger than epoxy. It's chemically resistant to salt, oil, gas, DOT 3 brake fluid and other harsh chemicals. It's even 98% more flexible than epoxy, allowing for natural concrete movement – Polyurea will not crack or peel.

Polyurea has for over 25 years applications pipeline coatings water treatment & sewer linings, fascia OEM fact, if you are spray-on pickup you are familiar with Polyurea. Fast cure times, flexibility, and abrasion-resistance are all inherent properties of Polyurea, making it a natural choice for the high demands on an average garage floor.

been utilized in industrial such as pipe / and linings, plants, manhole and automotive molded parts. In familiar with truck bed liners,

Clear Top Coat

One Coat Polyurea System

OPTIONAL ITEMS

Polyurea Primer-Body Coat Part "A"
Polyurea Primer-Body Coat Part "B"
2 Decorative Chip (8 OZ Each)
Professional Safe Etch Prep Solution
Paint Stir Stick
How To Instructional DVD
* EACH KIT COVERS 275 SQ.FT.*

SIMPLE 3 STEP APPLICATION!

1 FLOOR PREPARATION: ROCK SOLID SAFE ETCH

Etch the floor with Professional Etch Solution. Etching opens the pores of the concrete, allowing the coating to adhere to the substrate.

2 MIX

Mix Rock Solid Polyurea Primer-Body coat part A & B

3 APPLY COATING

Roll On Rock Solid Polyurea Primer-Body Coat
Apply Decorative Chip

4 APPLY TOP COAT (OPTIONAL)

Apply optional Rock Solid Polyurea Top Coat.

WARRANTY: We offer an industry-leading 5-year warranty against delamination.

INDUSTRIAL GRADE POLYUREA FLOOR COATING SYSTEM

RockSolid Floors is an industrial grade system truly superior to that of any epoxy or urethane product available. Our patent pending RockSolid System™ will allow you to finish your floor in hours, not days - able to handle foot traffic in just 6 to 8 hours and vehicle traffic within 48 hours. You get the kind of durability and speed that only Polyurea can offer.

M I C R O - B O N D T E C H N O L O G Y

RockSolid Floors Exclusive Micro-Bond Technology utilizes 40,000 micro hooks per sq. Inch ensuring an industry leading adhesion to the concrete. Micro-Bond Technology also creates a slip resistant surface, over an epoxy coating that are prone to be very slippery in wet or damp conditions.
