The Art of Appreciating Pure Concentrated Perfume Oils

Allow the perfume to breathe for a moment. It must be out of the bottle, preferably on your skin.

Be patient. Unlike alcohol based perfumes, pure concentrated perfume oils are much stronger. Allow the top note to burst forth and settle into the middle or heart notes for a rich, intimate, close to the body fragrance experience.

Enjoy! Pure concentrated perfume oils are a sensuous, complex structure that evolve with your personal chemistry through the day.

DUBAI

The magical sensations of Arabia captured in our chic, opulent and avant-garde perfume. A pure veil of beauty.
