Archive-SeCure™ 3600 for M]Xg]nY businesses

The accelerated growth in email volume increasingly taxes the capacity of email servers. This rapid growth, combined with the need to preserve data for regulatory compliance and other business purposes, makes effective email archiving essential. The PineApp™ *Archive-SeCure™* 3600 series supplies midsize organizations with a powerful set of tools to cope with their archiving needs.

Multiple Email Retrieving Technologies

Archive-SeCure™ offers several data retrieval options, for both active and passive archiving. Because retrieval is possible via several protocols, from several locations simultaneously and from all types of mail servers, it does not matter how many or what kind of mail servers the organization uses. *Archive-SeCure™* can fully retrieve all the data. In addition, Mail-SeCure also has the ability to retroactively pull all existing mail messages currently stored on the organization's mail server using the PST and NSF files' migration feature.

Data Encryption

The archiving process is not just about data storage. Security is a major issue.
In order to aid system administrators in achieving better data security to meet the latest content compliance regulations (European, US and worldwide), *Archive-SeCure™* is equipped with a strong data encryption feature that protects sensitive data from any unauthorized access.

Data Compression

Compressing data prior to storage allows for more efficient use of available storage space. *Archive-SeCure™* stores data at a compression ratio of up to 1:60. With this feature, organizations can store much more information in significantly less storage space!

Full Integration with Mail-SeCure

Organizations that have a configured Mail-SeCure appliance on their network will be happy to know that *Archive-SeCure™* fully integrates and interfaces with all Mail-SeCure appliances. Using a few simple configuration steps, system administrators can assume full control over all *Archive-SeCure™* functions and features (including search queries) from within their Mail-SeCure Web interface!

Single-Instance Storage

Another way of saving storage space is through *Archive-SeCure'*s single-instance feature, which automatically saves only one copy of an attachment across thousands of emails, reducing storage costs by up to 90%.

Features & Benefits

+ Periodic Administrative Reports
+ Real-Time Alerts
 + Comprehensive Audit Trail and System Logging.
+ One-Stop Shop
+ Centralized Mail Management
+ Seamless Integration
+ LDAP Support
+ Intellectual Property Protection
+ Scalability
+ Improved Compliance
+ Rapid ROI
+ Redundant Information Solution
+ Standardized Format Storage

SPECS

Model	3605 (DAS)	3610 (DAS)	3620 (DAS)
Number of mail users (recommended)	250	500	1000
Dimensions (WxDxH)	Appliance: 429X382X44 mm (16.9X15X1.7 inch) Storage: 486.4 x 569 x 44.4 mm (19.1 x 22.9 x 1.7 inch)		
Weight	Appliance: Gross 11 Kg (24 lbs), Net 10 Kg (22 lbs) Storage: Gross 7.6kg (16.7 lbs)		
CPU cores	1 x Intel(R) Core(TM)2 CPU 6400 @ 2.13GHz		
Power	Appliance: Full range 250W ATX PSU , 100~240VAC 50/60Hz auto range Storage: 220W power supply		
Disk Capacity	Appliance: 160GB SATA Storage: 2x1TB HDD (Raid1)		Appliance: 160GB SATA Storage: 3x1TB SATA (Raid 5)
Ethernet Port	4xGbE		
Internal load balancing support	✔		
Advanced appliance management	CLI (ethenet based connection)		
Licensing	Revolutionary unlimited user licensing program		
Warranty	1 year limited warranty		
Compliance	Basel II, PCI, HIPPA, SEC Rules 17a-3/a-4 and NASD Rules 3010/3110, GLBA, FOIA and Sarbanes-Oxley.		
Certifications	CE, CB, FCC, UL, RoHS.		

Model	3650 (NAS)	3655 (NAS)	3660 (NAS)	3670 (NAS)
Number of mail users (recommended)	100	250	500	1000
Dimensions (WxDxH)	429X382X44 mm (16.9X15X1.7 inch)			
Weight	Gross 11 Kg (24 lbs), Net 10 Kg (22 lbs)			
CPU cores	1 x Intel(R) Core(TM)2 CPU 6400 @ 2.13GHz			
Power	Full range 250W ATX PSU , 100~240VAC 50/60Hz auto range			
Disk Capacity	160GB SATA			
Ethernet Port	4xGbE			
Internal load balancing support	✔			
Advanced appliance management	CLI (RJ-45 & RS-232)			
Licensing	Revolutionary unlimited user licensing program			
Warranty	1 year limited warranty			
Compliance	Basel II, PCI, HIPPA, SEC Rules 17a-3/a-4 and NASD Rules 3010/3110, GLBA, FOIA and Sarbanes-Oxley.			
Certifications	CE, CB, FCC, UL, RoHS.
