

# MOUNTAIN SKY

The Pristine Source for the Natural Body™

Mountain Sky mountain-grown natural body products are carefully hand-picked far up on the green Canadian mountainsides where they grow. Each soap, lip balm, massage bar and body butter is bursting with the same natural beauty amid which it takes shape--the sparkling mountain rivers, sweet forest scents, and calls of woodland birds and ospreys soaring above the peaks in the clear mountain air. True connoisseurs know nothing beats Mountain Sky mountain-grown products for enjoying a clean, healthful, environmentally-friendly lifestyle.

Mountain Sky natural products are inspired by our beautiful Canadian mountain valley setting. Our products reflect our commitment to a higher quality of life for our employees, environment and community.

*Raynald Losier & Nina George*   
Founders & Owners since 1993

Mountain Sky makes only high quality castile handcrafted soaps. We use an old-fashioned, cold-process method where we hand-cut our soaps and carefully cure them to create a long-lasting bar.

Mountain Sky all vegetable soaps are made with essential oils. Extra-moisturising shea butter is added to all our soaps. All of our castile soaps contain only natural colors and enrichments consisting of spices, plant extracts, nourishing exotic oils and minerals.
