IridoLabSM Evaluation Report

Customer	GYcf[Y Ga]h
Gender	Male
Age (Years)	((
Scan Date	6/1(/2009
Scan ID	bEmail@email.com_12222
Account Owner	Mr. George Smith

Right Eye

Left Eye

We help you keep an eye on family health!SM

The entire team thanks you for using IridoLab. Early problem detection, subsequent treatment and monitoring are among the most important and well known factors in improvement of overall quality of health care and reduction of health care costs.

The enclosed IridoLab Evaluation is based on statistical analysis of specific biometric characteristics found in the digital images of your eyes. IridoLab compares these biometric characteristics to statistically derived patterns and shows deviations from statistical norms among the listed anatomical systems. The Report is not intended to be a substitute for professional medical advice, diagnosis or treatment. Only a licensed physician can provide a true diagnosis, determine whether or not treatment is required and/or prescribe any medication for you. **IF YOU HAVE A MEDICAL EMERGENCY OR NEED IMMEDIATE MEDICAL TREATMENT, PLEASE CALL 911 OR CONSULT A LICENSED PHYSICIAN OR AN EMERGENCY MEDICAL FACILITY IMMEDIATELY.**

We hope that you use IridoLab regularly and wish you many healthy and happy years.

The IridoLab team.

IridoLabSM Evaluation Summary

Scan ID: bEmail@email.com_122222	Not detected *	Be aware	Pay attention	May be at risk
1. NERVOUS SYSTEM	✓

Risk Factor		* Explanation of terms used
0	Not detected	IridoLab was not able to detect any deviations from statistical norms.
1	Be aware	Small deviation from statistical norms detected. You should be aware of this fact and watch for any developing symptoms.
2	Pay attention	Significant deviation from statistical norms detected. You need to observe yourself more closely for signs of ailment and advise your physician during your next visit.
3	May be at risk	High deviation from statistical norms detected. You may be at risk. A check-up performed by a licensed physician may be warranted.

The IridoLab Evaluation Report (the "Report") results are created using statistical methods, which means that accuracy of your results may fall outside the range stated above. The Report is not intended to be a substitute for professional medical advice, diagnosis or treatment. Only a licensed physician can provide a true diagnosis, determine whether or not treatment is required and/or prescribe any medication for you. **IF YOU HAVE A MEDICAL EMERGENCY OR NEED IMMEDIATE MEDICAL TREATMENT, PLEASE CALL 911 OR CONSULT A LICENSED PHYSICIAN OR AN EMERGENCY MEDICAL FACILITY IMMEDIATELY.**

Please visit www.IridoLab.com to access your IridoLab Evaluation and to review the complete Terms of Use.
