Automated Telephone H1N1 Flu Information System

Mobilize Quickly to Serve Your Constituency

- Currently available to all 50 states, counties and municipalities of the U.S.
- Low-cost way to quickly provide your callers region-specific information on the H1N1 Flu
- System messages include frequently asked questions (FAQ) + information you record
- Receive your own dedicated toll-free or local number only for <u>your</u> constituents
- Your dedicated web portal allows you administer your account and run reports on call activity
- <u>Includes a Press Release Template</u> to get the word out fast

System Specifications

- Unique phone number for your area—or use your own number
- <u>No hardware, software or phone lines to maintain</u>
- System is housed in a secure location
- Two menu choices you record plus prerecorded FAQ
- Administer the system from your pc via the web
- 24x7 Technical support
- No long-term contracts, cancel any time
- Also available in Spanish (as a part of the English system)

How it Works

LIVE DEMO 866-327-0425

The DiRAD H1N1 system is hosted in our secure facilities in upstate New York. Driven by our advanced IP telephony platform, each customer's telephone application is run according to the phone number dialed. When someone dials your local H1N1 information number, it actually is answered by our system in New York. Our system then plays your local information—not a generic recording.

FAQ

Q: What does it cost?
A: The base service is $1399.00 to setup. There is a nominal fee of $99.00 per month for the CDC information and $.14 per minute for usage. If you want Spanish, add $999.00 to the setup fee.

Q: So, if I have only 100 calls per month at 2 minutes each, it will only cost $127.00 for the month?
A: Yes!

Q: Flu season is over, and now I want to cancel.
A: You can cancel at any time and will incur no further costs.

Q: Do you accept government purchase orders?
A: Yes. We specialize in government service. We also take American Express.
