

It is said that clothes do not make the man. That's right.

Not clothes, but a well chosen fragrance is the most beautiful adornment, which adds splendor and charm. Appropriately matched perfumes can reflect and complement the personality. People with a romantic nature choose floral scents. Strong personalities prefer strong, oriental fragrances... Individualists find original wood perfumes interesting. There is something about it. Show me your scent and I will tell you who you are...

In the latest catalogue you will find, in addition to already well-known products, new extraordinary scents from the Classic and Luxury Collection – some fresh and subtle, the other sophisticated and intriguing. In order to emphasize peculiarly the beauty of the new compositions from the Luxury Collection, we have chosen original bottles for them. I would also like to point out, that for the first time in the range of FM GROUP men perfumes appeared (p. 4-5). We also refreshed the scent range of shower gels and body balms.

We have decided that in this catalogue information concerning particular products will be given in the form of key words that can be quickly acquired and easily remembered. We left the comparative tables, which consolidate perfume products available on the market in terms of fragrance families and retail price. Additionally, to make your use of the tables and selection of a suitable fragrance more pleasant, we have created a psycho test „Know yourself”. Have fun and a successful shopping!

a. If you marked mostly A answers, you will definitely love the fragrances of the **floral - fruit** and **floral – oriental families**. The blends within these groups are intense and tasteful, perfectly suited to, like beautiful jewels, complement an elegant woman's clothing. Sophisticated, sweet scents of jasmine, rose, lily of the valley, ylang-ylang flower, iris and violet combine in intriguing compositions to make you feel extremely attractive. You can also try the perfumes from the **chypre family** – refreshing, stylish and extremely sexy.

b. Mostly B answers? It is clear that the most suitable perfumes for you will be vivid scents from the **citrus family**. You will definitely love them. Fresh, light aromas of bergamot, lemon, orange, lime and grapefruit will make you feel fresh and relaxed for the whole day. All your friends will envy you the citrus energy! And if you want a change and are looking for a sensual, but not too heavy, fragrance suitable for going out in the evening, you should consider choosing perfumes from the exquisite **floral - water family**.

c. If in your case you chose mainly C answers, you should ask your Distributor to familiarize you with fragrances from the **wood** and **chypre families**. You will undoubtedly like the warm and rich notes of sandalwood, the original smell of patchouli and the refined aroma of vetiver, which together create the sensuality and nobility of the wood family fragrances. On the other hand, fragrances from the **chypre family** are a bit more refreshing – thanks to aromatic cedar and bergamot oils.

d. Did you mark mostly D answers? Thinking of you, the **oriental fragrances** have been created. They are warm, sensual and seductive, and their exotic notes will certainly suit you. Aromas of oriental balms and resins, vanilla, cinnamon and cardamom will make you feel like you are in Paradise! If you would like a change from these beautiful, though heavy fragrances, try perfumes belonging to the **wood family**. Although lighter, these are equally sensual and their subtle fragrances will satisfy the most demanding tastes.

The more beautiful and original perfumes are, the more complex composition they have. Some notes (called 'head notes') are released immediately, making the fragrance seem light and fresh. After a while however, you will smell the intense and deep 'heart notes'. Then, at the end, you will detect the long lasting 'base notes'. It is worth taking time to discover the full beauty of your chosen fragrance.
