

**The Best Warranty in the Industry. Our Exclusive FREE 3 Year Warranty.**

Our standard 3yr warranty is offered free of charge on every hardware purchase. From entry level parts to enterprise level systems and SAN architectures, the Great Lakes Computer Extended Warranty provides the security you need

**IBM System x3550**

Designed for applications ranging from Web serving to workload consolidation and virtualization, the IBM System x3550 offers high-speed, dual-core and quad-core processors with blazing front-side bus speed. Optimized for exceptional application computing, the x3550 features a highly functional infrastructure with more memory capacity, lower power consumption, and dramatic systems performance increases.

**Last Chance for NEW Custom Configured Systems!**

**BONUS: Free 4GB RAM With Any Server Purchase (2 x 512MB DIMMS)**

| <u>Servers</u>                     | <u>Description</u>  | <u>Price</u> |
|------------------------------------|---|--------------|
| 7978AC1                            | x3550 Configure-to-Order Chassis w/ Rails 2.5 small form factor   | \$1,850      |
| <i>choose up to two processors</i> |   |              |
| 40K1272                            | Quad-Core Intel Xeon Processor E5345 (2.33GHz 8MB L2 1333MHz 80W) | \$500        |
| 40K1251                            | Quad-Core Intel Xeon Processor X5355 (2.66GHz 1333MHz 120w)       | \$600        |
| 44E5080                            | Quad-Core Intel Xeon Processor X5460 (3.16GHz 12MB L2 120W)       | \$1,150      |
| 44E5121                            | Quad-Core Intel Xeon Processor X5450 (3.0GHz 12MB 1333MHz 120W)   | \$975        |
| 44E5076                            | Quad-Core Intel Xeon Processor E5420 (2.5GHz 12MB L2 80W)         | \$450        |
| 44E5077                            | Quad-Core Intel Xeon Processor E5430 (2.66GHz 12MB L2 80W)        | \$510        |
| 44E5078                            | Quad-Core Intel Xeon Processor E5440 (2.83GHz 12MB L2 80W)        | \$725        |

**IBM System x3650**

For constrained data center environments, the IBM System x3650 offers unprecedented performance and reliability. Optimized for up to eight-core processor performance, the x3650 delivers rack-dense, dual-core or quad-core computing power, with an impressive 12 DIMM memory design and super-efficient network communication.
