If you already own a leaf blower, then your total cost of parts from Home Depot & our step by step guide with video instructions, is less than \$40 (for most homes) & it will work year after year after year. Our tool also works with Shop Vac's to reverse the process for a super clean finish or to clean the toughest of clogged gutters!

All of the parts to make the our gutter cleaning tool (including a leaf blower if you don't have one), can be purchased from your local **Home Depot** or **Lowe's** store or on the internet.

What could be easier? Our tool is such a breakthrough for you because:

- ✓ It is **SAFE** - Work from the ground without a ladder
- ✓ It is **SIMPLE** to put together in 5 minutes or less
- ✓ It is **FAST** because you just walk around your home to clean your gutters
- ✓ It makes Gutter Cleaning so **EASY**, my 13 year old does mine now
- ✓ The tool is **DURABLE & STRONG** - it will last for many years to come (if not forever)

All of these benefits leave you with much more time to do what you want -

instead of a whole day or weekend of gutter cleaning.

or maybe just get in some extra family time???
