

Professionalism and Confidence through Training

Targeting safety and risk management

Curt Lewis & Associates LLC in conjunction with **Beyond Risk Management Ltd.** are pleased to host

“A Practical Approach to Safety Management Systems” a course designed for the American aviation industry.

With the FAA’s planned introduction of Safety Management Systems within the next few years – you can get ahead of the curve and save time and money by learning the potential pitfalls and challenges associated to its implementation. The Canadian aviation industry has experienced many of the same challenges likely to be faced by the US aviation industry. To better prepare you and your organization to meet these challenges we are pleased to bring to you the Canadian experience with regulated Safety Management Systems adapted to the US needs.

Dates – December 4 & 5 (Friday and Saturday), 2009 **SEATS ARE LIMITED** - to ensure good discussion and time to question in a workshop environment class size is intentionally intimate. **Register now to avoid disappointment.**

Schedule

Day One (Tuesday)	0730 – 0800 hrs.	Registration & continental breakfast
	0800 – 1200 hrs.	Session #1
	1200 – 1245 hrs.	Lunch
	1245 – 1700 hrs.	Session#2
Day Two (Wednesday)	0730 – 0800 hrs.	Continental breakfast
	0800 – 1200 hrs.	Session #3
	1200 – 1245 hrs.	Lunch
	1245 – 1630 hrs.	Session #4
	1630 – 1700 hrs.	Closing remarks and Presentation of certificates

Location – The sessions will be held at the Radisson Hotel Phoenix Airport North – you may book directly with the hotel to reserve the special course rate of \$89.00 per night plus taxes 602-220-4400 or 1-800-395-7046 (http://www.radisson.com/phoenixaz_airportnorth)

Overview – Improve safety performance by applying the fundamentals of SMS within your organization. Get past the barriers of independent departments to an integrated system. This two-day course gives you the comprehensive understanding of SMS and the tools to assist you in preparing for change in your organization.

Who should attend - Any individuals who will be actively involved in the organization's Safety Management System (safety program). Individuals with previous experience and those with no knowledge in safety management will find this course useful for the formation or expansion of safety programs within their organizations.

Important Details - Although this course covers the proposed FAA Safety Management Systems requirements the content is global in nature, participants from other nations and industries will find the material both useful and beneficial.

Professionalism and Confidence through Training

What you get - Participants will receive a consolidated reference binder of class material as well as an electronic version of the material which will provide guidance for setting up a system within their organization. Upon successful completion of the course a certificate will be issued.

Subjects that will be reviewed are:

- * Safety and security
- * What Safety Management Systems is (definitions)
- * Corporate culture - The push for change (**a full review of the ICAO, Transport Canada and proposed FAA Safety Management Systems requirements**)
- * Risk Assessment techniques
- * Data collection and processing
- * Front line involvement and committee process
- * Incident Reporting
- * Incident/Accident investigation techniques and process
- * Trend Analysis
- * Response to events and emergencies
- * Safety promotion
- * Implementing change (and the obstacles to change)
- * Documentation process.

Logistics - Tea/coffee/juice/water will be provided in the classroom at all times, continental breakfast and lunch on both days is included.

Cost - \$1,150.00 US funds per person (**NOTE – special discount**, register three people from one organization and get the **forth attendee as our guest**) **NOTE** - when attending the follow-on Quality Assurance and Auditing Course (Monday and Tuesday December 7 & 8) there is a special discount - the two courses for \$2,000.00 a **\$300.00 savings!**)
