3. City Saver Plan \$0.06c per minute
4. Save more with corporate packages
5. City Max Plan from \$0.04c per minute

CellSaver

CellSaver was developed to save businesses and consumers from the exorbitant costs charged by the cellular phone companies for long-distance calling. Unlike calling cards and other difficult tools, the software simply installs on your Blackberry device, and integrates seamlessly with your environment (contacts list, recent call list, etc.) and works on your iPhone – no download or iTunes required. CS also works on most touch-screen smartphones.
