RB Fitness Flooring combines outstanding appearance, durability, ease of installation and carefree maintenance. Whether you select our glue down rolls or the glue free interlocking RB Zip-Tile you will appreciate the seamless appearance and rugged toughness for years to come.

RB Fitness Flooring is resilient, reduces stress on muscles and joints, is sound absorbing to reduce room noise and provides excellent traction from all activities.

Top rated clubs, universities and other users that demand the very best have made RB Fitness Flooring a standard in the industry. Try our product on your next installation and you will understand why.

RB Fitness Flooring is available in four-foot wide rolls, square tiles or the interlocking RB Zip-Tile in six standard flec colors or a rainbow of custom color options.
