

Testimonials

“We were getting countless complaints every week from students about being over messaged. With Regroup, we’ve saved time and addressed the needs of students by allowing them to control who they hear from and how they hear from them with a few clicks. We’re definitely fans!”

Beth Kenney, Director of Academic Computing
University System of Maryland

“I love regroup it has enabled me to connect with my peers and my fellow students as well as alumni of our school. It has made a world of difference to how day to day life runs on campus. I use it most for communicating with my honor society, Phi Theta Kappa, we are not always on campus all the time and it is a great way to keep in touch.”

Emily Miller, SGA Student Trustee, President of the Phi Theta Kappa, SUNY

“Regroup has helped us to save time and has been a great tool for us to manage the communications in SGA - our messages are actually getting through!”

Kathi Perkins, SGA, University System of Maryland

“Regroup has been incredibly fast to respond to our needs. The platform is great and the personalized service is refreshing and has been missing from vendor relationships for some time.”

John Obermann, Director of Technology, Valparaiso University School of Law

“Before we implemented Regroup we didn’t really understand the power of social media. Not only did Regroup get us set up on their platform, they guided us through to social media landscape and helped us get set up on Twitter and Facebook. Our Alums have responded well and we’re amazed at how much time the platform has saved us.”

Susan Caballero, Director Alumni Affairs, New Mexico Highlands University
