

The Smart Check-In™

The Smart Triple Header... Three Smart Products - in One

SMART CHECK-IN EXPRESS

Special guests due to arrive? Or heavy check-in crowds expected? The Smart Check-In™ is the perfect solution. Easy to set up and tear down, constructed of unbreakable Plexiglas and lightweight but sturdy metal, it provides plenty of counter space for computers and other check-in necessities.

SMART VALET STAND

First impressions matter! Replace dated wooden units with our new Smart Valet. A handsome, modern, well-constructed unit featuring a spacious pullout drawer and an automobile keyboard. Features built-in LED lighting (with remote control color selection and optional battery power).

SMART PODIUM

Now you can offer your meeting and ballroom clients a podium that matches the rest of your upscale furniture and equipment. Attractive, functional, completely portable. The Smart Podium can even be personalized with photographs, logos, conference titles, you name it!

All Smart Space Products come with the most innovative cordless LED lighting technology.

You can select color changing options by remote control in the palm of your hand!
