AbsoluteProof®

Protect Your Data's Integrity, Defend its Authenticity

Solution Set Overview

The Burden of Proof | Have Your Electronic Records or Files Been Tampered With? How Do You Know?

The pressure is mounting to prevent and detect electronic record fraud. Trouble is, tampering with electronic files and other digital content has never been easier – all it takes is motive and a keystroke.

Can you protect the integrity and legally defend the authenticity of your electronic records in a legal, regulatory or patent dispute? Can you prove beyond a shadow of doubt they have not been altered at any time – even decades after their creation?

Now more than ever, you require the *power to prove* that your intellectual property, business, and financial records are authentic.

You need AbsoluteProof® from Surety.

Get AbsoluteProof | Get “Peace of Mind”

The economic risks of unreliable electronic records are compelling: missed business opportunities, lost productivity and increased costs. There's never been a more important time than now to integrate and automate data integrity and authenticity controls throughout your business processes.

With the AbsoluteProof trusted time-stamp service and a Surety Integrity Seal™ applied to your electronic records, you'll have the ability to objectively defend the ownership and credibility of your digital content, and will be in the strongest possible position if you were ever to enter into a legal or regulatory challenge.

This can translate to achieving “peace-of-mind.”

THE POWER
OF PROOF

Integrated Data Integrity Protection

An external or third-party time stamp proves that people within your organization and outside the corporate perimeter neither altered nor backdated any electronic data.

AbsoluteProof is an Internet-based service that works wherever your most important electronic records or other digital files reside, and is compatible with any data source, regardless of format—including email, electronic health records, engineering diagrams, scientific device readings, audio, video, CAD diagrams and audit logs.

AbsoluteProof is already integrated into a wide range of electronic records management applications, archive solutions, electronic lab notebooks and multi-function printing and scanning devices, and can also be integrated at any point in your business process – data capture, generation, management or archive.

Trusted
information not
only mitigates
risk, it creates
significant
business value
and strengthens
operational
efficiency.

Legally Defensible Proof of Authenticity | We Guarantee It!

With Surety, you're not just buying digital time stamps, you're gaining the Assurance and "Peace-of-Mind" that the integrity and authenticity of your electronic files is PROTECTED – that's what you're looking for and that's what we guarantee!

Your digital content time stamped by AbsoluteProof qualifies for Surety's Legal Defensibility Guarantee, a service backed by Navigant Consulting, a leading international litigation support firm, designed to give customers confidence that their "sealed" electronic content will withstand the most vigorous legal scrutiny.

Under the guarantee, you receive access to sworn affidavits and expert witness testimony to the quality of the underlying technology, confirming that the Seals provided by the AbsoluteProof service are authentic and have not been compromised, as well as a money-back guarantee should a federal, state or local court in any jurisdiction render a final and non-appealable decision that Surety has not been able to satisfy its claims.

AbsoluteProof Works Wherever Your Most Important Records Reside

Applications, pre-configured modules and easy-to-integrate software development kits enable AbsoluteProof to be deployed seamlessly into any platform or system in your environment.

Available solutions include:

- **AbsoluteProof Desktop** - Easy-to-use application for sealing and validating individual files on Windows-based systems

**THE POWER
OF PROOF**

- **AbsoluteProof FolderSeal** - Windows-based application that performs automatic sealing of new or modified files in file folders and subfolders
- **AbsoluteProof for Microsoft SharePoint** - An automated software module for protecting the integrity and authenticity of records in the Microsoft SharePoint platform
- **AbsoluteProof for Microsoft Exchange** - An automated software module providing content integrity for email content and attachments
- **AbsoluteProof for OpenText Livelink** - An automated software module for protecting the authenticity of records in the Livelink ECM framework
- **AbsoluteProof for Xerox DocuShare** - A pre-configured software module protecting the authenticity of records inside the record management workflow of Xerox DocuShare
- **AbsoluteProof for FileNet P8** - An automated software module for safeguarding the authenticity of records stored in the P8 content repository

Got a Custom Application? AbsoluteProof SDKs Make Integration Easy

AbsoluteProof Software Development Kits enable you to easily and affordably integrate the AbsoluteProof trusted time-stamp service into any custom application. The kits include full documentation, sample scripts and command-line tools for:

- JAVA
- C++ (Windows, Linux, and Solaris)
- .Net

About AbsoluteProof Data Integrity Protection Service

With millions of electronic records and files worldwide “sealed” by its service, Surety is a leading provider of data integrity protection solutions. Surety’s AbsoluteProof trusted time-stamp service can mitigate risk, create significant business value, and defend the integrity and authenticity of electronic records and other valuable digital content.

AbsoluteProof ensures against content tampering by providing a “digital wax seal” for all types of electronically stored content. Backed by a legal defensibility guarantee, AbsoluteProof ensures that electronic records, files, documents and other digital content sealed using the AbsoluteProof service will withstand the toughest legal scrutiny.

To learn more about how Surety’s AbsoluteProof trusted time-stamp service can help you protect the integrity and legally defend the authenticity of your digital assets, visit www.surety.com.

Think of us as the modern-day “Digital Wax Seal”
