Plus Computer Solutions Named a VAR Star by Bob Scott's Insights

Sage Accpac Business Partner, Plus Computer Solutions, Recognized For Performance and Leadership

Burnaby, British Columbia—December 18, 2009—Plus Computer Solutions, a Sage Accpac ERP business partner, today announced that it has been selected as a member of the 2009 VAR Stars by Bob Scott's Insights, a publication of the Progressive Media Group. VAR Stars is a group of 100 organizations that are being honoured for their accomplishments implementing mid-market financial software.

"This award is made to honour organizations for factors such as quality performance and leadership in their arena," said executive editor Bob Scott. "It is made without regard to the volume of annual sales made by these businesses, although their ability to achieve notable growth is considered."

This is the first year that the award has been made by Bob Scott's Insights, a weekly electronic newsletter and companion Web site. However, Scott has been providing information, analysis and humor to value-added resellers and suppliers of mid-market accounting software since 1991 and has been involved in the awarding of previous industry honors.

Plus Computer Solutions was selected for inclusion for a variety of reasons including vendor recognition, leadership in its market space, and outstanding growth.

"As a personal fan of Mr. Scott, it's an honor to be named to the inaugural VAR Star listing," said Glen Mund, president of Plus Computer Solutions. "Our organization is committed to delivering quality, cost-effective solutions to our clients - solutions that solve today's business challenges and deliver a measurable return on investment. We do it well, and it's a pleasure to receive this acknowledgement on behalf of the entire team at Plus Computer Solutions."

###

About Plus Computer Solutions Ltd.
