

Printed Electronics Summit USA

MAY 10-11 2010, DOUBLETREE HOTEL, SAN JOSÉ, CA, USA

Your Roadmap To Printed Electronics Scale-Up, Technology and Mass Market Integration

Register Today!
**SAVE
\$400!**

• End-user interaction • Latest case-studies • Top-level networking • Technology updates • Cross industry learning

INDUSTRY LEADERS SPEAKING

Eric Forsythe,
Team Leader -
Flexible Displays,
U.S. Army

Markus Strecker
Engineering
Director,
Adidas

David Fyfe
CEO, Cambridge
Display
Technology

Dr. Alexei Andreev,
Managing Director,
Harris & Harris

Dr. Kate Stone,
CEO, Novalia

- **SMART PRINTING PROCESS SELECTION:** gain a detailed understanding of the strengths and weaknesses of all current and emerging printing processes so you can make the right choice for your business
- **MATERIAL, INK AND SUBSTRATE EVOLUTION:** from printed silicon to carbon nanotubes - benefit from an in-depth analysis of the latest developments that will enable fully printed electronics
- **SCALE UP YOUR PRINTED ELECTRONICS BUSINESS:** from prototype to roll-to-roll, hear real life lessons from companies that have already made the leap
- **PRINTED ELECTRONICS INTEGRATION AND HYBRID SOLUTIONS:** hear success stories from companies that have already successfully integrated their Printed Electronics into commercial devices and what you need to do make it happen for your business
- **IMPROVING EFFICIENCY, EFFICACY AND PERFORMANCE:** Examine the latest developments in efficiency across Printed Electronics, how to get the most from your technology and discover the depth of potential for future gains
- **PICK YOUR PRINTED ELECTRONICS WINS:** Expert analysis of the Printed Electronics market and predictions on the greatest market opportunities, enabling your business to maximize its full market potential

EXPERT SPEAKERS INCLUDE:

Supported by:

End Users:

"Are you serious about Printed Electronics?"

6 excellent reasons why you should attend this event!

- ★ Over 200 industry professionals set to attend
- ★ Top case studies and examples from international end-users
- ★ Wide ranging printed electronics exhibition
- ★ Over 12 hours of networking and business building opportunities
- ★ Industry networking drinks party
- ★ Panel Sessions, discussion groups, key note speakers

...Practical advice and case-study based solutions from the very best in the industry ... Simply unmissable!

Internationally, printed electronics is a USD 1.92 billion market with plenty of room to grow - according to experts, the industry's value is predicted to expand thirty-fold during the next decade.
