IBM, Bricsys and Fresh T Limited Collaborate to Integrate Vondle Live into IBM LotusLive

Orlando, Florida US – January 18, 2010:

On the 18th of December 2009, Bricsys NV and Fresh T Limited signed an agreement with IBM to integrate Vondle Live into LotusLive.

Vondle Live is a cloud-based Project and Data Collaboration tool set provided by Bricsys NV and Fresh T Limited. It is based on Vondle, a suite of collaboration software developed by Bricsys.

“The integration of Vondle Live into LotusLive is the result of a long standing relationship between two teams of dedicated professionals,” said Erik De Keyser - CEO of Bricsys. “Bricsys has a proven record of bringing cloud technology to the market, while Fresh T Limited has more than 20 years of excellent sales and marketing experience.”

Vondle Live brings additional functionality to LotusLive in the form of document viewing and annotation, graphical workflow, automated data processing and an on-line data repository with dynamic reporting.

Vondle Live in action at IBM Lotusphere 2010

You can see Vondle Live in action at IBM Lotusphere 2010 - Booth 532. For more information go to www.bricsys.com/vondlelive or visit our YouTube channel at <http://www.youtube.com/bricsys>
