## The Leader in Opening Glass Walls

The VSW65 Single Track Slider with swing doors resembles French doors with sidelights.

Swing doors and sidelights disappear to the sides.

## Introducing the VSW65 Single Track Slider with Center Swing Doors

The NanaWall VSW65 Single Track Sliding System with Center Swing Doors resembles French doors with fixed sidelights and all the functional and aesthetic benefits of French doors. The NanaWall advantage is that the pair of swing doors and the sidelights easily slide away to create an unobstructed opening up to fourteen feet wide.

## Design Benefits

Panels glide easily to both sides. Mark English Architects

### Design Benefits of the NanaWall VSW65 Single Track Sliding System with Center Swing Doors:

- Symmetrical center swing French doors
- Flexibility of large opening glass walls
- Panels can stack unobtrusively to the side or out of sight in a pocket when open
- All panels are in the same plane in a single track
- Narrow stiles and rails maximize the glass area
- Hinges, sliding and multi-point locking hardware are concealed and integrated into the profiles
- Available in a choice of woods, glazing, divided lites and hardware
- Each system is custom designed to the specifications needed. The maximum sliding panel width is 4 feet and the maximum swing panel width is 3 feet 3 inches. The maximum unit height is 9 feet 10 inches

## Engineering Benefits

When closed, the system provides weather resistance and energy efficiency for the interior.

### Engineering Benefits of the NanaWall VSW65 Single Track Sliding System with Center Swing Doors:

- High performance levels for air, water, structure and security
- The main weight is borne by the top track, which ensures smooth operation even when there is some dirt or debris in the bottom track
- Long-term ease of use with industry-leading compensation and adjustment features
- Quiet and rattle-proof operation because of the patented, sealed, ball bearing multi-roller running carriages
- Sustainable design features – energy efficiency, natural daylighting, and natural ventilation
- Single source supplier with more than 20 years experience in engineered, precision-built systems with pre-fitted hardware for large opening glass walls
