

Vision

Samuel K Designs provides homeowners with timeless, classic designer windows for any traditional or contemporary home. Compared to costly stained or leaded glass windows, a Samuel K designer window makes breathtaking views possible for your home and budget. We've revolutionized the window industry and are committed to providing our customers with innovative, original designs that highlight the beauty of their individual homes.

Designer Windows Est 1998

The Samuel K Story

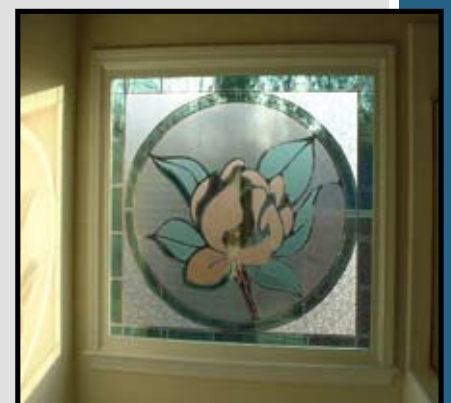

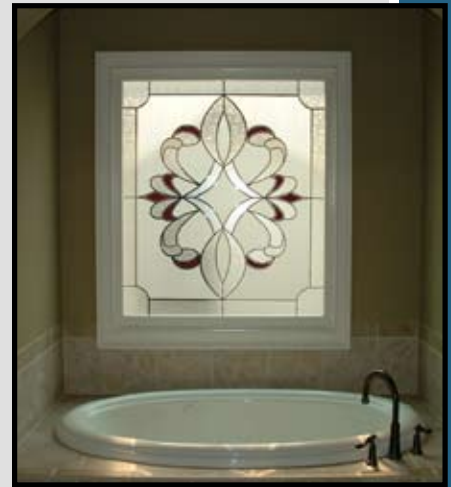

A growing need for an alternative to stained glass along with a totally new dimension in window treatments birthed the concept of Samuel K Designer Windows in 1998. After 18 months of initial development, the product was offered to a limited client base to test the market and fine-tune the product.

We are proud to offer an alternate window treatment that has been marveled at, embraced and installed in the most discerning high-end market homes across the country.

Samuel K Designs is the innovative leader in quality, affordable glass overlay products for windows of any size or shape. For more than a decade, homeowners have enjoyed this best kept secret of leaded and stain glass looks at a fraction of the cost.

Established in the Atlanta, Georgia area, Samuel K is a business with a family backbone. Sam and Mike Kamber are passionate about creating custom and one-of-a-kind pieces for their customer's homes. From sidelights, to foyer windows, garden tub windows and shower enclosures, every Samuel K Design upholds its signature quality of transforming your home with timeless, classic window looks for the privacy and beauty of your home.

Samuel K Designs have been the first choice of contractors, builders, and interior designers for homes, churches, and other facilities as the new industry standard to affordably add the look of expensive window treatments to any project.
