There are 3 things that every website needs.

- 1)To GET VISITORS to the website (TRAFFIC).
- 2)To KEEP VISITORS on the website (use of a STOP Method or a strong design, easy to find products or services).
- 3)To give them a REASON TO COME BACK (Mailing Lists, Newsletters, Special Sales, Win an iPod contest every month, etc.).

Search Engine Optimization will bring increased traffic to any website when the optimization is handled by an effective firm.

SEO Image will help clients get their audience to STOP! and LOOK! at their websites, or offer ways to lure their visitors to specific pages such as a contact page or product purchase page. This is 100% old school marketing that every website should not be without.

How To Choose an SEO Company

Background:

Choose an SEO whose clients rank highly for competitive terms. Choose an [SEO company](#) whose clients continue with them after 6 months, 1 Year and even longer terms. Many firms today are after a quick return, they are simply selling 6 months of low quality services cheap and they know you will be replaced in 6 months by someone else. You are simply buying into their assembly line. At SEO Image, we are a Results Driven firm, we want you to see a return as quickly as possible because we want you for the long-term.
