*Finding out information on any phone number is as easy as
1...2...3*

The screenshot displays the 'Reverse Phone Detective' website interface. At the top left is the logo, and at the top right is a 'Tracer Report' button. Below the header, it shows 'Phone Results For: (555) 555 - 5555' and 'Phone Number Line Type: Mobile'. A table lists 'Owner's Name' as 'Sample Name' and 'Most Current Address' as '123 Main Street, Any City, State, 12345'. Below this, it shows 'Phone Issuing Location' as 'Mobile Telephone Company, 123 Main Street, Any City, State, 12345' and a 'File A Complaint' button. A 'Google Map' shows a location in San Francisco. At the bottom, there is a disclaimer: 'Mobile Telephone Company provides a Customer Service Hotline that will be able to help you in filing a complaint about (555) 555 - 5555. Please contact them at 1 800 555 5555'.

STEP 1.) Get the number you want to use and find more information about. Is it a phone number from inside the United States or Canada? Make sure it is 10 digits and includes the area code. It should look like: (555)-555-5555

In future steps, we'll need this exact format and number in order to find the correct information we need.

STEP 2.) Using [Reverse Phone Detective](#) (or some other similar reverse phone lookup service) you should locate the field where you input the phone number you want more information about. It will look something like the following:

(You can click the image to visit it)

Input the phone number, 10 digits and including the area code, into the field as shown above. Then, let it search millions of records and phone numbers across the nation. This can take a few seconds to process. Your screen will look like the following screen shot when the search is taking place:
