Make your own music now

Even more sounds, more realistic instruments, and more effects – thanks to its expanded sound design, real 5.1 Surround mixing, high-quality live tools, and useful studio extras, you can even deeper into the world of music production.

More sounds, more effects, more possibilities

Thousands of current audio building blocks and effects from the studios of internationally successful producers are waiting to be combined and transformed however you want. Integrate your own recordings or parts of your favorite MP3s. In a short time, your own perfect songs will be ready – in CD quality. And the best part is, it's all so simple that you can get started right away.

It's easy

Select sounds

Preview and select sounds in the Media pool – or import your favorite songs from CD or MP3 and use them in your own song project.

Combine them

All sounds and loops can be easily cut, edited, copied, and arranged into your own song.

Mix them

Easily add effects, vocals, and adjust volume with the new mixer.

Publish it

Export the songs you create as MP3s, burn them to CD, or publish them on the web

NEW! Get started without any prior skills

Music programs often seem so technical and complicated that the fun of making music is usually left out. MAGIX Music Maker 16 Premium is different: To make getting started as easy as possible, support is available from the very first second!

The practical infobox and the new interactive tutorial help you become familiar with the program in the shortest time possible. Simply switch it on by clicking it and learn even more about making music during the process!

Easy mode

If you want, only the most important areas will be shown to make it immediately clear to you so that you won't have to wait too long to make your first songs!

Plus: Practical help videos that help you make music like the pros in the shortest time possible.

NEW! Huge sound archive

The huge sound package features new loops and samples from every musical genre, e.g. rock, pop, dance, hip hop, disco house, techno, chillout, ambient, film music, minimal electro, and many more!

Over 3,500 professional sounds provide the ideal basis for your sound experiments. All sound building blocks can be combined without any problems and adjust automatically to the current song tempo – this ensures that you'll always be on the beat to let you concentrate completely on making your own sound.

What are loops?

Loops are audio building blocks that are edited so that they play over and over without interruption. Melodies or drums are often played in loops to repeat multiple bars.

With an audio program like MAGIX Music Maker 16 Premium, slightly different loops can be combined to create your own songs. That's how you can make your own hits in record time.

Record & remix

Record your own instruments and vocals directly, import MP3s and even your favorite songs from CD – everything is quickly and easily cut, remixed, edited, and enriched with effects!

PLUS! Expand your sound archive with your own recordings! Everything you record is immediately available for every song to add your own personal touch to your music.

NEW! Even more instruments

MAGIX Music Maker 16 Premium offers ultra-realistic simulations of real instruments like acoustic guitars, electric guitars, electric basses, bass, drums, grand pianos, electric pianos, power chords, synth bass, and much more

Thanks to the professional sound engine from Yellow Tools™, making music with real sounds becomes an acoustic experience!

Only in the Premium version:

- **NEW! Soundtrack Percussion 2** for Vita – exciting percussion sounds in your own songs.
- **Download free instruments** from the Internet to use in your own song projects!

Get into the details when you want to

The practical MIDI editor enables melodies to be simply drawn in and changed! You'll also receive more exciting synthesizers like LiViD, the first-class virtual drummer.

NEW! Play any instrument right away with your PC keyboard

BeatBox 2 Plus

The BeatBox 2 Plus drum machine is the ideal tool for creating your own grooves and beats: Drum kits full of dynamics, unlimited possibilities for sound shaping, high-quality effects, and much more.

The famous BeatBox principle is fun and quickly provides exciting results – no matter whether your a pro or a beginner: It's never been easier to build complex and layered beats!

PLUS! Unlimited automation options and many more sound controls via expanded effects functions.

True sound design

With Revolta 2, every PC becomes a sound laboratory. The high-performance analog synthesizer makes anything possible, from gritty bass lines to cutting lead sounds and complex sound patterns! This makes experimenting with sound an experience; give your own music its own individual polish.

NEW! Extra sound pack for even more new analog sounds.

Mixing & effects

Use the integrated studio-quality effects to make every song a top hit! Mix your music like the pros: Every track can be adjusted to suit the others with the integrated mixer, and a click adds enriching effects to make your music more brilliant, pumping, and crystal clear. More mixing options are featured thanks to the 4-band equalizer in every mixer channel and 5.1 Surround mixing.

Tip! Thanks to numerous effects and templates that have been provided especially by pros, everyone can find their own perfect sound.

Vintage Effects Suite

Vintage effects provide your sound with even more possibilities! Make music with a personal touch – thanks to typical effects for any musical style. Plenty of professional effects templates make using the Vintage Effects Suite child's play, and exciting results are produced quickly.

NEW! Top-quality guitar sounds

With Vandal SE, the authentic guitar and bass amplifier, making music becomes a real experience.

Thanks to the unbelievable sound neutrality and numerous effects, your own songs will become real hits with fantastic vintage sounds – discovering new sounds is a blast

NEW! essential FX

With the new essential FX effects series, any sound can be changed quickly and easily. Effects like chorus or flanger enable exciting audio shaping and true sound design.

Get the sound of the pros on your own PC now, without any prior skill or technical knowledge!

PREMIUM! More effects for unique sounds

Mastering for any situation

Audio software for any situation: Thanks to the built-in Mastering Suite, every song sounds perfect in every playback situation!

Click the sound to adjust it for the most diverse circumstances – no matter whether for the kitchen radio, for club sound, for a CD in your car, or to play it on your own stereo system in your living room.

NEW! Practical sounds

To make your own recordings easier to edit and perfect for your own music projects, every loop and sound can now be cut sample-exactly and positioned perfectly in the song with the object microscope.

The object inspector also enables all settings and adjustments to be made directly in the Media Pool, which makes working with sound objects easier than ever before.

Live on stage with your music program

The Live Performer helps you produce exciting songs in a completely new way: Play any part of a song via computer or MIDI keyboard and combine them in new ways like a DJ - live and in real time!

The new timecode sync even makes it possible to connect two PCs via MIDI and make songs together with friends as a team! External hardware synthesizers and other devices can also be synchronized; everything is on beat with the rhythm.

The perfect combination: Music for videos, photos, websites, and much more

MAGIX Music Maker enables everyone to add their own unique touch to their music – without prior skills and without long learning periods; it's the perfect companion to slideshows, video clips, presentations, websites, and much more

Who wouldn't like it? Hollywood-style cinematic sound, homemade and perfectly tailored to your needs. The songs you make yourself will make your own videos and slideshows into a real experience.

Tip! Anyone who is already familiar with video or photo software from MAGIX won't have any problems getting started with MAGIX Music Maker.

IMPROVED! Export and publish

Find new listeners quickly – who doesn't want that? Publish finished songs directly on the web with one click, transfer them to an MP3 player, and create your own demo or album CDs. Everything is possible with one click.

Feature your own songs online on video portals like YouTube™ or **NEW! MySpace™** – directly from the program
