## ABOUT PROFIT POINT

[profitpt.com/about](http://profitpt.com/about)

Profit Point Inc. was founded in 1995 by supply chain optimization experts working at a Fortune 500 chemical manufacturing company. As a leader in supply chain technology implementation, Profit Point has grown to the forefront of delivering optimization solutions across a breadth of industries and functions.

Since its inception, Profit Point has expanded to provide a wide array of supply chain offerings, including a proprietary supply chain assessment methodology, a suite of customizable optimization software applications, and an integrated series of optimization services to improve your entire supply chain.

Profit Point has a rich history of optimizing complex business processes. We are committed to working with our clients to understand their business problems and to deliver the most effective optimization solutions. We invite you to contact us, and together we can design custom optimization solutions to improve your business.

**Winner 2008  
Green Supply Chain Award**
