

## Never Lose Email Again Stay Compliant and in Control

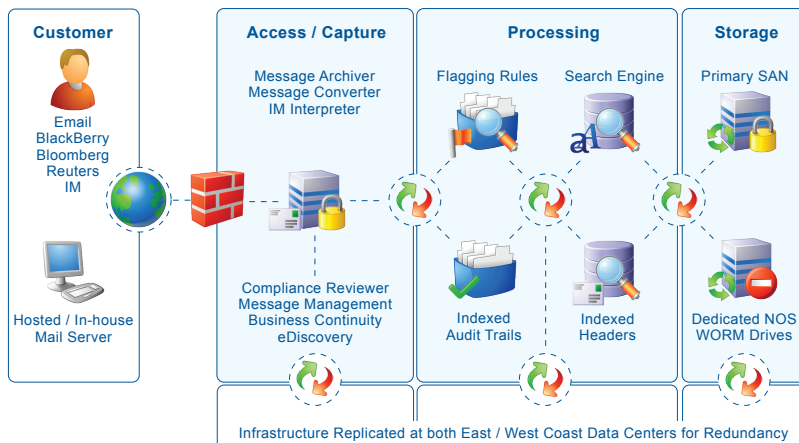

Through a partnership with Global Relay, Cloud Commerce offers its customers the Message Archiver, an industry-leading mutual fund compliance archiving and monitoring solution to securely store email and instant message (IM) for regulatory compliance, audits and eDiscovery.

Whether communicating with investors, clients or employees, email and instant messaging have become principal business tools. Retention and management of these records is essential to protect your firm's intellectual capital and for adhering to best practices for investor comfort and regulatory compliance.

## The Message Archiver & Compliance Reviewer

Global Relay's Message Archiver provides secure, off-site message archiving and long-term storage with online access. A tamperproof copy of all incoming, internal and outgoing electronic data, including email and attachments, instant messaging, e-fax, BlackBerry, Bloomberg, Reuters and any imported legacy email, is captured, replicated and unified in the Message Archiver. The archived data is mirrored between geographically isolated SAS 70 Type II Certified Verizon Data Centers. Simple web-based search and retrieval tools provide rapid access by compliance officers and employees to current and historical email records, even if the original has been deleted. The Compliance Reviewer provides real-time monitoring and audit tools for regulatory compliance and eDiscovery.

### Global Relay's Email Archiving Solution

Global Relay is a leading provider of hosted message archiving, compliance and continuity services, delivering solutions to over 4,000 organizations worldwide. The Forrester Wave: Messaging Archiving Hosted Services, Q1, 2008 named Global Relay as the only "Strong Performer" and ranked Global Relay's current offering Number 1 in 4 of 6 categories: security, message capture, ease of use and supervision.
