Global Relay, Cloud Commerce Partner to offer hosted email archiving and compliance solutions

St. Louis, MO – February 10, 2010 – [Global Relay](#), the leading provider of hosted message archiving, mail management and compliance solutions for business, announced today a partnership with [Cloud Commerce](#), a leading provider of Cloud Computing/SaaS solutions for business.

Through a technology partnership with Global Relay, Cloud Commerce provides an easy-to-use, effective email archiving and monitoring solution to address the requirements of regulatory compliance, audit and legal discovery while alleviating the burden of email management, security, backup and storage. Global Relay's fully-managed, secure, offsite message archiving—with Web-based access for rapid search, retrieval & monitoring—seamlessly integrates with Cloud Commerce Exchange messaging services to deliver a practical business solution with complete data security and privacy. Exchange email, together with Blackberry and instant messaging can now be captured, archived and searched in one application.

"Cloud Commerce is solely focused on bringing the best of breed in cloud based application providers to our clients. Our research in the compliance message archiving space brought us to Global Relay." said Cloud Commerce founder, Greg Altin. "We couldn't be more excited about our partnership with Global Relay. Due to the new regulations and legal ramifications, companies can deploy a world class message archiving system in a matter of days with minimal upfront costs and no headaches."

"We're excited to introduce our email and instant message archiving solutions to the Cloud Commerce Cloud," said Global Relay President & CEO, Warren Roy. "Together, we deliver a powerful cloud based archiving solution to address mail management, regulatory compliance, audit, eDiscovery and business continuity needs. We believe that the Cloud Commerce model offers tremendous value and we look forward to building our partnership."

About Global Relay

Global Relay, founded in 1999, is a leading provider of Hosted Email Archiving, Instant Message Archiving, Compliance and eDiscovery solutions. Through a Software-as-a-Service (SaaS) model, Global Relay offers affordable, enterprise-class archiving and monitoring solutions for secure, offsite storage of email and instant messages. Global Relay's easy-to-use, highly secure Message Archiver and Compliance Reviewer solutions address regulatory compliance, audits and legal eDiscovery, while alleviating the burden of email management, security, continuity and storage. Global Relay's services are used by over 4,500 organizations worldwide including 22 of the top 25 global banks, global multinationals, public companies, investment advisors, broker-dealers, hedge funds and The Chicago Stock Exchange.
